F.R.E.E. (Fund to Restore an Educated Electorate), the publisher of this chart, was founded in 1980 by Johnny Stewart of Waco, Texas to educate the general public to understand their government and its money system. F.R.E.E.'s educational materials create public awareness that both major parties are controlled at the top by an international network, principally the Bilderberg Group, The Trilateral Commission and their propaganda organ in the United States, the Council on Foreign Relations (CFR). F.R.E.E. informs citizens how these organizations control government policies through the placement of their members in positions of influence in government, media, financial and educational institutions and industry to bring about their objective of a global government and global debt-based monetary system.

The Council on Foreign Relations is the American branch of a society which organized in England . . . (and) . . . believes national boundaries should be obliterated and one world rule established." [WITH NO APOLOGIES by Senator Barry Goldwater, Berkley Books, New York, p 126]

The Trilateral Commission was formed in 1973 by private citizens of Japan, Europe (European Union countries), and North America (United States and Canada) to foster closer cooperation among these core democratic industrialized areas of the world with shared leadership responsibilities in the wider international system. "The Trilateral Commission is international . . . (and) . . . is intended to be the vehicle for multinational consolidation of the commercial and banking interests by seizing control of the political government of the United States." [WITH NO APOLOGIES, by Senator Barry Goldwater, Berkley Books, New York, p 293]

The Bilderberg is a quasi-secret consortium of international elite who meet annually to plan world economic and political policies. The Bilderberg has no membership per se. Those identified with "B" in this chart have attended at least one Bilderberg meeting.
