Child Protective Services Stealing & Sex Trafficking Children Stories Could Get You Killed - But They Must Be Exposed

Editor's Note: I post the following with great remembrances of my family's own dealing with CPS in our state. It was not pretty and the incompetence of the social workers we dealt with, as well as many of the doctors was staggering, but to have children taken and then trafficked to who knows where and to whom is sickening. Once you read this piece, take time to [read this additional article, which can be found here](#), concerning Benghazi and child trafficking. I have not had contact with Dave's source, but I was contacted directly by the woman who fed the late Nancy Schaefer her information on the child sex trafficking going on from the east coast into the San Diego area and out to the world. This woman's children were taken from her, but she was able to get one of them back and flee to Mexico. There is much more I could disclose about this woman and may do so at a future date. For now, the threat is real in the United States that children are being stolen from families, [put into sex trafficking rings](#) and [being trafficked around the world](#), and in some cases it's to [fund Muslim warfare](#) in other countries, and apparently

[Barack Obama supports it.](#)

I couldn't sleep last night.

I am scared for myself and my family. I feel like I am being dragged into something that is a real danger to us.

I reflected and prayed and came to the decision that I will do what is right and trust in God to protect us. I am sure a lot of people will laugh at me and say this is just another one of those "conspiracies" from D.C. Clothesline.

I can't do anything to change the minds of those who can't see how corrupt and evil things have become. All I can do is tell you that my gut is twisted in knots and I don't know what to do. I want to run and I want to hide.

At the same time I think what it would feel like if I were Dave or Monika now.

Who are Dave and Monika?

Dave is Dave Hodges. He is an associate of mine and the host of The Common Sense Show. He allows me to reprint his blog articles. He is a good man. His passion in life is to get to the bottom of stories and he did just that a couple of weeks ago when he blew the lid off of a scandal so big that it put him in danger. Dave found evidence that Child Protective Services has been used as an arm of vengeance, from the powers that be, and is now engaging in child sex trafficking.

Monika is a State Department employee that has lost her son Dylan, allegedly because she is on the wrong side politically. Dylan is currently being sexually abused in a home with two sodomites. You won't likely read this story in very many places, because it is one of those stories that is just simply too big. It is one of those stories that gets people killed.

This is like IRS targeting on steroids.

Monika emailed me yesterday. I had no previous contact with her. She was Dave's "source." I didn't know her, but she looked me up because she was concerned. Here is that email...

Dean,

Thank you for passing the stories along that Dave Hodges wrote about Dylan and I. DFS has started attempts to silence me and intimidate me. I am scared for my son's and my safety. My power went out in my apartment for a whole night and day, thus causing my surveillance cameras to be powered off, while I was not home. No one in my entire apartment building lost power, just me. Dave's website just went down, none of the stories work. Can you please ask people on your webpage to please re-post the stories all over the web. I have a feeling "someone" is taking down all links and stories pertaining to Dave Hodges, Mary Tyndall, and myself.

Thanks -

Monika Wesolowski

xxxxxxx@gmail.com

xxxxxxx@gmail.com

P.S.

Should "anything" happen to me (would NOT be of my own doing) please circulate information about DFS/CPS corruption and child sex trafficking, and please share my story of how CPS stole my son and is trafficking him out to homosexual pedophiles.

I am very slow to answer emails lately. There just aren't enough hours in the day. I happened to see hers about 7 hours after she sent it. I exchanged a couple of more emails with Monika and she told me that Dave has taken his site down and is laying low for a few days. Apparently he has received threats toward his family. I also told her that I would do something to try to raise some more awareness for her this weekend. That is what I am trying to do now.

I don't ask this often but I would ask for anyone who cares to **please share this article far and wide**. This story has to come to light somehow. The mainstream media sites and sources will not pick this story up because of their agendas. Some of the larger alternative sites were talking to Dave the last time I was updated, but to my knowledge they had not released this story yet. I know that WND.com was one of the sites Dave mentioned. Other sites are likely scared of getting involved in this. For anyone who remembers the **Franklin Credit Union Child Trafficking Scandal**, you will realize that these stories can result in a lot of untimely deaths for investigators and witnesses.

This is not my story and I do not know all of the details. So I am simply going to reprint what Dave previously wrote and hope that it somehow gains traction. I am putting my belief in the Patriotic people of this country to make this story be heard. Please remember that you are the new media and you cannot be silent. There are some very frightened people that are counting on us. We can't keep looking the other way. We cannot keep letting these people get by with these heinous acts.

Illinois and Virginia CPS' Conspire to Steal and Sex Traffic Children

Posted on **May 17, 2014** by **Dave Hodges**

When holding on to sensitive information, I have found it prudent to go public as I believe it gives the greatest chance of not becoming a statistic such as **Breitbart, Hastings, Clancy** and appropriately in this case, Nancy Schaefer. Subsequently, I am publishing notice of the fact that the state of Virginia Child Protective Services is sex-trafficking in children that it illegally seizes and that the Illinois Child Protective Services is cooperating with Virginia in order to complete a child abduction with sex-trafficking connections.

Obamacare and Child Abduction

Nearly three weeks ago, I wrote an investigative article which exposed a massive conspiracy designed to separate parents from their children and an obscure element of Obamacare would subsequently give the government **complete** control over your children.

In the article, it was documented that Human, Health and Services (HHS) and their state level emissary, Children Protective Services (CPS) are engaged in a conspiracy which will culminate in (1) the Agenda 21 designed breakdown of the family; (2) the eradication of any semblance of parental authority over children; and, (3) unbridled and unfettered access to seizing children from the home in unlimited quantities for whatever nefarious purposes (e.g. child sex trafficking) which might dictate the volume of child seizures.

Based upon the emails and comments the article generated, it became clear that most people saw the threat to American children as

being real. However, there were the typical allegations of fear mongering and falsifying facts and conclusions by the programmed sheeple in this country who would have everyone believe that there is no such thing as a conspiracy in which two, or more, bad people would ever jointly plan to do something nefarious. Well, it did not take more than 24 hours after publishing the article for me to receive notification of a case that would parallel the hysteria I was promoting in the [April 29, 2014 article](#).

The case, in question, involves a single mom, Monika Wesolowski, who just happens to be a State Department employee with a security clearance. I am vaguely aware that some of her work involves ambassadors and the White House. Please note that if Wesolowski can be targeted by the new Obamacare "child protection" guidelines, given her lofty federal employee status, then we should conclude that no parent and no child is safe from the evil intentions of this administration and some of its sex trafficking minions.

With absolute certainty, it can be stated that the Virginia Child Protective Services and its partner, the Department of Family Services, along with the Illinois Child Protective Services are conspiring to steal children and sex traffic these same kids

A Quick Review of Obamacare "Child Protection" Provisions

This unprecedented [program](#) mandates a partnership between various United Nations organizations and ICF, acting on behalf of HHS, CPS and Obamacare (i.e. The [Affordable Health Care Act](#)). [The evidence demonstrates](#) that Obamacare is representative of the fact that our families are living in a Hitler Youth Movement hellish nightmare in which the state owns and can seize your children for whatever reason and purpose they deem appropriate.

After reviewing HHS, CPS and UN documents, what is being presently reported in the alternative media is merely the tip of the iceberg with regard to HHS' intentions toward the ultimate outcome of the children in this country. After reviewing the documents, there is no doubt that Obama is representing international interests which will seek to remove as many children as possible from the homes of their parents in the spirit of the Hitler Youth Movement.

In the 110 page HHS/CPS manual, written by the UN think tank group ICF, on behalf of HHS, now serves as the field manual for CPS child snatching operations. The new "variables" which comprise child neglect, worthy of government intervention is frightening beyond any words I can find to express their undisguised intentions.

Under the HHS/CPS policy manual, they label any "grounding" of a child as neglect by **isolation**. There are no time frames set forth which constitutes isolation and it is left to the field representative. This obviously erodes parental discipline.

If your child is judged to be underachieving in school, this is referred to as educational neglect and is worthy of governmental intervention. Further, if your child is absent for five days in any one month from school, the same allegation would be made against the parent.

If your child has ADD or ADHD, you could be accused of neglect because the document details how this can be somehow caused by **poor nutrition**, although the variables associated with the cause are not specified.

Of course, no Obama inspired program would be complete without an attack upon the Second Amendment. Obamacare is no exception as one of the criteria for child neglect are parents who are also gun owners.

I am sure that now some of the sheeple remember this referenced article where provided detailed documentation on how Obamacare allowed for CPS to steal children for nefarious purposes. They said it just was not true. Unfortunately, it is true and I now have a shining example of this horrendous program in action.

Monika Wesolowski and Son Dylan

The father of Monika Wesolowski and the grandfather of Dylan sent Monika the article described above to his daughter. This prompted an introductory email sent by Ms. Wesolowski to myself. After reading Monika's email, I had flashbacks to the [Stacy Lynne case](#) that I have been working on since December of 2011, when Stacey's son, Jaden, was stolen by a Judge Julie Kunce Field who was a former consultant to the IMF and World Bank. Stacy's was not accused of committing any crime except for publicly opposing the Agenda 21 policies in her hometown of Ft. Collins, Colorado. For her public advocacy, she now has no contact with her son and has no idea where the boy is living.

Wesolowski is guilty of even less than Stacy Lynne, who was guilty of nothing. She is guilty of being a conservative working in an ultra-liberal environment. She has an NRA bumper sticker on her car, her screen saver promotes conservative causes and she is not personally and morally on board with the "gay" and "green" agenda that has come to dominate every federal administration under the most liberal President in American history. Wesolowski does believe that she has been targeted because of Catholic based, conservative views. She has been audited by the IRS and "randomly drug tested" by her employer. Before you dismiss these occurrences as random events, keep in mind that the enforcement agent for the new snatch and grab policies of Obamacare is the IRS and that this President has been exposed for using the IRS to harass Tea Party members and uncooperative members of the mainstream media.

Wesolowski Makes Contact

On April 30, 2014, I received a lengthy email from Monika Wesolowski who detailed how her son Dylan was stolen from her home

without any legitimate provocation.

On 4/30/2014 11:07 AM, Monika Wesolowski wrote:

Dave,

I read your article in the RBN about how HHS is taking away children through means of CPS. This happened to me in December of 2013, the night before my son turned five years old. He is on the spectrum of Autism with PDD, sensory processing, and behavioral disorders. He is in special education. Our lives were turned upside in a matter of hours. I had no idea prior that this would happen. They came in SWAT gear to my home, with CPS arriving over an hour later. The ordeal lasted from 8:30pm to past 11pm. I did not let them in my home, and in this way they classified me as a danger. They claimed I choked my son 2 days prior and therefore he was in imminent danger of life and that they were taking him away. I never hurt my son. It was the first sign of a skin condition, eczema patches, that my son started having. He had one small round one on the back of his neck. This is what they used against me. They did not take him to a doctor but ruled on hearsay. Once in temporary custody of my neighbors, we immediately took my son to the pediatrician, who claimed there was no injury and no bruising. (EDITOR'S NOTE: I HAVE THE PEDIATRICIAN'S REPORT AND THE APPEARANCE OF A RASH WAS SUBSTANTIATED, NOT BRUISING FROM SOME MYTHICAL ATTACK). She stated my son had a skin condition and provided medication. CPS was very angry that we took him to the doctor. They used the doctor's report against me saying I coerced the doctor and that I was trying to use the medication as a cover. I was never arrested or criminally charged, rather my son was taken based off hearsay and Civil Court Order, an Emergency Removal. Once in court, the judge refused to incorporate any medical records. By this time my son was in a foster home of two gay men. I am Roman Catholic and have been very opposed to the foster home. By the time this went to court, there were two medical records as my son was taken to the pediatrician while in foster care and given medication for a second eczema (dermatitis) rash. He has had a few of these rashes since the ordeal started.

My son was kidnapped by CPS in order to traffic him into foster care. He is in a home of two gay dads. I don't know what to do. I live in Fairfax County, Virginia, which is now exploding with more cases such as mine. I am having a hard time getting a lawyer, no one wants to oppose the system. People are afraid. They have now accused my son's daycare of child abuse. The daycare testified on my behalf in court, so they are now accusing the daycare of abusing my son and pulling out his hair, leaving bald marks, and putting poop in his face. I know this is all false also. When they removed my son from my home, they took him out of the daycare too, so these were new charges, even though he was no longer attending. They are trying to scare everyone around me.

I am a good mother, and my son has developmental disabilities. This was used to interrogate and coerce my son, and kidnap him. The father started this mess when he lost custody and all appeals, I had won sole legal custody. Two months later they were taking my son away and the ex now had the chance to modify custody. He added false claims of abuse and has been working with CPS and DFS (Dept. of Family Services) to keep our son in foster care.

I need help or advice. Can you put my story out for people to see? Can you help me expose this more, or maybe let me know if you know of anyone that can help?

Kind Regards,

Monika Wesolowski

Falls Church, VA

Monika went to court to try and get her son removed from CPS custody. She took the pediatrician's report as well as the CPS psychological investigation which stated that Monika posed no threat to her son and the fact that the boy had not been injured. Amazingly, the judge would not allow the evidence to be entered into testimony leaving with the conundrum of this being her word vs. the word of CPS.

Monika has sent me the following in a later email:

Attached are also the pediatrician records I tried to use in court, with sworn affidavits. The 12/9/13 is the evaluation to prove I did not injure my son. The full CPS report is attached too. It's full lies and fabrication, they refused to also use my maiden name despite that I was divorced at this point. They also listed me as Hispanic in one section in order to justify their funding....

Speaking of funding, All CPS organizations receive \$ 5,000 for each child taken from the home and that money is paid by HHS. If the child and mother are minorities, the funding stipend increases, hence the Hispanic designation.

Many of these new wards of the state simply disappear and are never heard from again as was the case in [Oklahoma](#). This is the kind of case that got former Georgia State Senator [Nancy Schaefer](#) killed for daring to expose the criminal connection between CPS and child sex trafficking done by organizations like DynCorps and HSBC Bank.

Child sex trafficking is big business and the business is run like a Mafia organization which eliminates with extreme prejudice those persons who would expose the practice. As an aside, I am all too cognizant of the fact who and what I am dealing with. Therefore, I have distributed the Wesolowski "proof" of these claims to trusted sources for all the obvious reasons. This article also represents a kind of insurance policy as well.

Monika Wesolowski Can Prove What She Claims

Rather than placing Dylan with family and close friends as a foster care arrangement, CPS has opted to place the boy with two gay men. This is where the situation becomes very concerning. Gay rights advocates can relax, I am not going to discuss the wisdom of such a custody arrangement. Rather, I am going to expose reported criminal activity of two men who have no CPS oversight with regard to their parenting of Dylan.

As result of Monika's visitations with Dylan, she has made some frightening discoveries. Dylan has "marks" in sensitive areas consistent with sexual abuse. The information is graphic and I am trying to determine the best method to release this photographic evidence. In addition, Dylan has regressed to defecating in his pants. He has unexplained fits of temper where he talks about cutting off his hands and the hands of others. Think sexually, this boy is describing the mechanics of sexual abuse. As some readers know, I am a former mental health counselor. If this case was taking place in my state of Arizona, I would be compelled to report these facts to the authorities or face going to jail.

Here is another excerpt of an email that Monika sent me with graphic evidence.

These are the photos I sent to my new attorney concerning my son's abuse & neglect, and fear or sexual abuse.

His dermatitis rashes are on his back and shoulder and have been there for at least several weeks, are getting worse. My son is skinnier and has lost weight since in the foster. He last yelled repeatedly that he wants to cut his hands off over and over and over prior to the bath....

Why the Delay In Reporting This Case?

Up until this point, I have been publicly silent on this issue because I was hopeful that Monika and Dylan would be reunited and I did not want to muddy the waters. CPS laid out a set of conditions that Monika had to follow if she was going to get her son back. She has fulfilled all of the unwarranted mandates that CPS laid out in order to get her son back. However, CPS/DFS is delaying the reunification until December of 2014. As I have discovered if this case gets dragged out for 12 months, CPS can take the child and no report requirement with regard to status has to be made to the original parent. This mother has no chance of getting her son back.

I delayed in reporting this case because Monika had a meeting, yesterday, with the Virginia Department of Family Services. I was hoping against all odds that she would get her child back and I did not want to antagonize the authorities. The following email description summarizes Monika's meeting with DFS.

Ok. Met with DFS, all they are trying to do is damage control. I called the police, it's a county over and their process is I have to talk to an officer first and only then it can go higher. I am saving brief clips of proof along with photos and dates, and going tomorrow during the morning as I have a feeling it will take half the day, and during the day. They won't let me speak to a detective until I have enough proof, so I'm compiling!

But yes, I will talk on your show. Send me details of exact date, time, and number.

Virginia and Illinois Are Conspiring to Steal Dylan From His Mother

On May 15, 2014, I received a very disturbing email from Monika which described the following collusion between the Virginia and Illinois CPS with regard to her son's case.

On 5/15/2014 8:20 PM, Monika Wesolowski wrote:

I just found out from my mom that the department of family services in IL tried to get my parents to sign a statement that I did something to hurt Dylan, and they wouldn't. So when they signed their name saying I was innocent and that they support me and are on my side, IL said that VA won't like that, and that my parents have no chance of getting Dylan since they are on my side. My mom is positive their plan is to adopt my son out into foster and no one in the family will have him. They are positive I need to make this all public. She believes DFS has NO intention of giving me my son back, despite what they tell me. I agree. I will try tomorrow, but I'm 99% sure we need to expose this and I need to file a Police report. (EDITOR'S NOTE: I HAD ADVISED MONIKA TO FILE A SEXUAL ABUSE REPORT AGAINST THE TWO GAY FOSTER PARENTS WITH HER LOCAL POLICE DEPARTMENT BASED UPON THE EVIDENCE THAT SHE HAD SENT ME).

Monika Wesolowski

I responded with the following show announcement:

On May 16, 2014, at 3:05 AM, Dave Hodges <davehodges@thecommonsenseshow.com> wrote:

I am booking you on my show for 2.5 hours from 930pm-midnight, Central, on May 25, 2014. I am going to invite your contact from the organization you told me about. She called but I have been swamped and will catch up with her on Friday or Saturday.

Dave

Dot Connecting

Remember the organizational pyramid I laid out earlier in the article. Obamacare is in charge of all child welfare. The IRS is the enforcement mechanism. HHS and resulting child services is operating under the previously documented UN created document on taking children from parents. HHS is now the de facto parent organization for CPS. Therefore, it makes perfect sense that Illinois, where Monika's parents live, would cooperate with Virginia's CPS in getting Dylan away from Monika's entire family to fulfill their immoral mandate.

Conclusion

This practice is a globalist practice given the fact that the operating procedures come from the UN. Does anyone still believe that anyone can acquiesce and coexist with any New World Order Agenda?

I will be providing updates on this most regrettable case in the near future.

Dave Hodges is the Editor and Host of [The Common Sense Show](#).

###End of Original Article###

Again, **I am asking people to share this and help get the word out.**

I am also asking you to **pray for all involved.**

I have young children and I really did not want to get involved, for obvious reasons. But someone has to speak for the woman who has already lost her child, and for the man who is in fear for his family's safety because of exposing the story. Someone has to speak for the frightened young child who has been away from his mother for too long.

Please do whatever you can to help. Somehow we must all find the courage to do whatever it takes to purge this country of the sickness which has overtaken it.
