

**A Plea to the People
of the World for
Peace
(First Draft)**

With the very real threat of World War III becoming a more real possibility with every passing day this plea has been formulated in an attempt to bring cooler heads to reign and to try to raise support for an international legal movement to force the self-proclaimed master of the world to finally abide by the rule of law and respect the sovereignty of the world's countries and the right of the peaceful people of the world to exist and be free. I ask you to share this with as many people as possible and publish it anywhere you possibly can.

Thank You and Peace and Love to You

**World War III:
The End Game is
Global Nuclear War**

The Big Picture: The End Game

Global Open Source Intelligence Report

This is a warning and a plea to all citizens of the world and for (not to) all of the world's intelligence agencies and intelligence services and to all of the people working in those bodies who have not been corrupted by, or are under the control of, the shadow rulers controlling the US/NATO and are ready to sacrifice for the good of their own peoples.

This warning/plea is primarily directed at members of the Intelligence Community of the United States who stand by their pledges to defend the Constitution and uncorrupt officers of FVEY member countries who are closest to the evil and have the power to put plans already initiated to start WWIII to an end. This is not a drill, or a stunt or a random message to be taken lightly. This is a warning because soon, very soon it will be too late and the end game from which there is no way back will have begun.

This warning and plea also goes out to all those who support the truth and peace including journalists, international lawyers, parliamentarians, activists and in particular members of the United Nations and international criminal bodies who are in a position to call forth investigations and initiate criminal and other proceedings under international law, the Geneva Conventions, the Rome Statutes and other international agreements and bodies. You are necessary in order to formulate proceedings, organize an international tribunal and gather the support for this effort which will be met with the most violent opposition imaginable by those powerful and entrenched powers who have almost succeeded in taking over the world.

The basis for addressing first intelligence agents and organizations and then truth seekers and real journalists is that they are on the front lines of the information war and they are most likely to possess the information that we have and have a deeper understanding of the conflicts that are continuing today and as to who the real players are and their real motivations.

The intelligence that we have is gone over briefly later in this paper and should be a wake up call to anyone who has been lied into believing the official

narrative that has been spun in the western media and is part of the information campaign that has been the primary front in the build up to World War III.

This call is going out now because we have received warnings and have intelligence that it is almost too late to stop plans that are already being put into play and all of the bellicose rhetoric, current military excursions and operations combined with the full spectrum unified actions by the US/NATO military-industrial-intelligence-media complex are all part of a build up to World War III and what will be the destruction of the West and the world in order to install a one world government.

The biggest threat to the lives of civilians continues to be what we believe are plans by the Shadow Government to carry out a huge, possibly nuclear, false flag event in order to justify a nuclear strike by the West and NATO. This should be a warning to US Citizens and western countries as well, as we know those in the shadows have no reserves about eradicating US lives (for their own "greater good") as we saw on 911.

No sane or rational person could want World War III so what we are dealing with are irrational, megalomaniac, insane individuals following ideologies that few normal people understand. We are convinced that all of these plans are being carried out by a tight little group that is controlling the US/NATO military planners, the NATO expansionists, the Neo-Con War Hawks and the financiers be they corporate or state actors. Recent intelligence points to the same group of necocons who were the architects of 911 and who follow a nazi ideology. Further evidence of this is evidenced by the unleashing and support of nazis by the CIA and the US Government in the Ukraine.

It is fortunate that these powers who are pushing for World War III are not the majority, but they do now hold and have people in all of the key positions of power in order to make their plans come to fruition. You must remember that it is you the people who are going to die for them and they will have no remorse in eradicating millions of us.

Again intelligence, public statements by several world leaders including the President of Russia Vladimir Putin, high ranking Russian officials, official

statements coming from Washington from multiple channels and finally preparations and statements by NATO countries and their leaders all point to the real intentions of the US and NATO to start WWIII.

This warning and report is not only for the international community but also for the Russian President and the Russian intelligence services. Unfortunately there are corrupt officials and western agents inside of the Russian Government that will never allow this warning to reach the right people so I am making this warning to you, the people and the international community, who with Russia will also pay the price for the US/NATO plans to establish their hegemony by force.

NATO's move to a new first strike preventive doctrine with a nuclear option and official statements echoing this from Washington are nothing but sheer madness and in reality the US/NATO are unilaterally giving themselves the right to use nuclear force against countries in order to prevent a threat, which is solely determined by them and has even been expanded to include cyber attacks which could be easily fabricated, obfuscated and have blame redirected.

This redirection of blame is nothing new but it has taken on dangerous levels with the advent of only 8 individuals controlling almost all of the media in the world and the unprecedented cyber operations that the US/NATO are themselves involved in. The integration of intelligence and media and complete and total surveillance by the CIA and NSA while verified by certain whistleblowers has never really been expanded upon with explanations as to why and how that integration and full spectrum surveillance can be used against you and I.

The dangers of the West's Full Spectrum Dominance are just now becoming apparent and it is clear that soon it will be too late to do anything to stop them and we will enter an age that even the likes of George Orwell could not have imagined, even in his wildest dreams. This complete and total takeover of the world by the United States will include you and everything that you love and everyone and anyone who is against it will be destroyed. These shadow rulers will have no qualms to destroy the United States, Europe and any other part of

the world as they will relocate themselves to Eritrea or some other exotic far removed location.

The Obama administration has built more nuclear weapons, more nuclear warheads, more nuclear delivery systems, more nuclear factories. Nuclear warhead spending alone rose higher under Obama than under any American president. The cost over thirty years is more than \$1 trillion.

A mini nuclear bomb is planned. It is known as the B61 Model 12. There has never been anything like it. General James Cartwright, a former Vice Chairman of the Joint Chiefs of Staff, has said, "Going smaller [makes using this nuclear]weapon more thinkable."

https://newmatilda.com/2016/03/23/john-pilger-why-hillary-clinton-is-more-dangerous-than-donald-trump/?utm_campaign=shareaholic&utm_medium=twitter&utm_source=socialnetwork

In summary: The attempt to pull Russia into a war has been going on now for years with many in the Russian and Western Intelligence Communities saying that World War III is already underway, that is true, but now the US/NATO is ready to make the cyber and information war, and their continuing "war by proxy", a direct and open full scale military confrontation while stating that all of the nuclear options are on the table. This nuclear option statement has been repeated in the last few weeks, time and time again and is cause for the most serious concern.

We are talking therefore about the launch of a first strike nuclear war by the US/NATO against the Russian Federation and no doubt the People's Republic of China and Russia's allies. With the intelligence showing the main reason being so that they can finally complete their floundering plans for establishing Full Spectrum Dominance and global hegemony within the time frame that they have set.

In this paper I try to present the reasons that international and other measures must be taken to stop those who would destroy the world.

In calling for the bring to justice of the architects of the endless global war, 911 and those who wish to now start World War III, this paper also seeks to gain support for the following measures and actions.

- 1. An end to all US/NATO military adventures around the world**
- 2. An end of US/NATO/CIA/MOSSAD/Saudi sponsoring of terrorists and the use of false flag terrorist acts to bring about war**
- 3. An end to all economic sanctions and actions that have been taken against the Russian Federation, Russians and Russian interests for US caused events**
- 4. The formation of an independent international tribunal to investigate all of the issues covered in this paper**
- 5. The immediate ceasing of support for terrorist and non-state actors who are destabilizing Europe, the Middle East, Syria and Ukraine**
- 6. An immediate halt to all psychological and other operations against civilian populations by the United States and its FVEY partners on the internet and through the use and manipulation of the media and the internet**
- 7. The formation of a war crimes tribunal to hear the cases of Iraq, Afghanistan, Syria, Libya, Donbass and other countries attacked or destroyed by the United States or the victims of regime change operations**
- 8. The immediate release of my son from a Russian prison which was secretly ordered by a state actor in Moscow**
- 9. A fair and impartial hearing for the Onodaga 15**
- 10. The immediate release of film maker Deia Schlosberg**
- 11. The safe passage for Julian Assange to the country in which he has asylum**
- 12. A real impartial hearing into the crimes of the Clintons**

A Direct Message to the American People

You must stop believing everything that you are being told by your media and your leaders. There is no country or power in the world that wants to take away your way of lives or your liberties or the freedoms that you are told you have. There is no country that has attacked you and there is no one who wants to destroy you.

What there is is a conspiracy within the United States that threatens to destroy the Republic and enslave all of you until the ends of time. A shadow government has almost completely cemented their power in the United States and soon there will be no way to extract them, if in fact it is already not too late.

As an introduction I ask you to remember the words of these two prophetic thinkers, John Fitzgerald Kennedy and Mario Savio, the choices of these persons is not accidental, for they saw exactly what was happening and in the case of John Kennedy, his words were not just prophetic but a direct warning about what we are faced with today.

Savio

There's a time when the operation of the machine becomes so odious, makes you so sick at heart, that you can't take part! You can't even passively take part! And you've got to put your bodies upon the gears and upon the wheels...upon the levers, upon all the apparatus, and you've got to make it stop! And you've got to indicate to the people who run it, to the people who own it, that unless you're free, the machine will be prevented from working at all! – Mario Savio

Kennedy

Today no war has been declared--and however fierce the struggle may be, it may never be declared in the traditional fashion. Our way of life is under attack. Those who make themselves our enemy are advancing around the globe. The survival of our friends is in danger. And yet no war has been

declared, no borders have been crossed by marching troops, no missiles have been fired.

If the press is awaiting a declaration of war before it imposes the self-discipline of combat conditions, then I can only say that no war ever posed a greater threat to our security. If you are awaiting a finding of "clear and present danger," then I can only say that the danger has never been more clear and its presence has never been more imminent.

It requires a change in outlook, a change in tactics, a change in missions--by the government, by the people, by every businessman or labor leader, and by every newspaper. For we are opposed around the world by a monolithic and ruthless conspiracy that relies primarily on covert means for expanding its sphere of influence--on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day. It is a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.

It is the tyranny from within that has stripped you of your freedom and your futures and it is the militarized surveillance state that will keep you under control and serve to enslave you, unless somehow people in control in the government who are supposed to serve you actually do.

Everything you are told is a lie, the entire War on Terror has proven to be a farce and 911 is now beyond any doubt a horrible event organized from the inside to destroy countries all over the world. You have let them run amok this long and soon they will bring about World War III.

Everything you are told is a lie all designed to allow them to strip you of your rights and your liberties and literally enslave you! Who has attacked your liberties and freedoms and your way of life since 911? Terrorists sponsored by

the CIA? No! Your own government which is supposed to serve you but which has made you all slaves to itself and if you dare question this only justifies the further militarization of the police and if you dare rise up you will all be placed in FEMA camps under REX 84.

The constant threats and lies of non-existent attacks and attackers, false energy and food shortages, over population, global warming, phantom aggressors and endless threats to your security have allowed them to obfuscate, hide in the shadows and lie to you as they have stripped away your civil liberties and all of the rights that they tell you the phantom terrorists want to take away. You see we now know they have created the terrorists themselves.

The Illegality of Regime Change and Aggressive War

Due to the now completely pliant and controlled media worldwide something has been left intentionally missing from any debate over post 911 use of aggressive military force on country after country by the US/NATO and the subversion/ destruction of states carried out principally by the CIA/FVEY/NATO and the US State Department. The elephant in the room is that coercive, orchestrated and provoked regime change violates the basic tenets of international law and the use of aggressive war, under any label is the ultimate crime, a Crime Against Peace.

Regime Change

In the case of Yugoslavia, the U.S. advocated for the establishment of a war crimes tribunal to try accused war criminals according to the highest international standards of due process. A strong argument can be made that states have an obligation to investigate and prosecute alleged war criminals and violators of human rights. In the case of Iraq, the perceived need for expedient regime change has come before any talk of justice.

The U.S. bent over backward in Yugoslavia to argue that none of its actions - not the bombing, the extensive sponsorship of civil society, or the war crimes investigations and trials - amounted to support for regime change.

Forcible regime change violates the deeply enshrined principle that people should be allowed to choose their own government. The cornerstone human rights document, the Universal Declaration of Human Rights, provides that the only legitimate government is one based on the "will of the people." The International Covenant on Civil and Political Rights, a convention ratified by the U.S., recognizes "self-determination" as a human right and specifies that "[b]y virtue of that right" all peoples have the right to "freely determine their political status and freely pursue their economic, social and cultural development."

Armed interventions for regime change also run contrary to Article 2(4) of the United Nations Charter, which prohibits the threat or use of force "against... [t]he political independence" of another state "or in any other manner

inconsistent with the Purposes of the United Nations." This includes the need to respect and to observe human rights and to promote self-determination. The definition of aggression adopted by the United Nations General Assembly in 1974 also provides that it is "the duty of States not to use armed force to deprive peoples of their right to self-determination." Violations of this duty may constitute an international crime.

The use of military force for regime change is in fact radically different than other kinds of U.S. intervention in recent years. Before taking that route, the U.S. should think hard about the precedent it will establish and the possible consequences.

Aggressive War and Crimes Against Peace

In the judgment of the International Military Tribunal at Nuremberg, which followed World War II, "War is essentially an evil thing. Its consequences are not confined to the belligerent states alone, but affect the whole world. To initiate a war of aggression, therefore, is not only an international crime; it is the supreme international crime differing only from other war crimes in that it contains within itself the accumulated evil of the whole." [2] [3] Article 39 of the United Nations Charter provides that the UN Security Council shall determine the existence of any act of aggression and "shall make recommendations, or decide what measures shall be taken in accordance with Articles 41 and 42, to maintain or restore international peace and security".

The Rome Statute of the International Criminal Court refers to the crime of aggression as one of the "most serious crimes of concern to the international community", and provides that the crime falls within the jurisdiction of the International Criminal Court (ICC). However, the Rome Statute stipulates that the ICC may not exercise its jurisdiction over the crime of aggression until such time as the states parties agree on a definition of the crime and set out the conditions under which it may be prosecuted. At the Review Conference in June 11, 2010 a total of 111 State Parties to the Court agreed by consensus to adopt a resolution accepting the definition of the crime and the conditions for the exercise of jurisdiction over this crime.[4] The relevant amendments to the Statute, however has not been entered into force yet as of May 14, 2012.

All of the points you have just read are completely valid and must be taken into account with the actions of the United States of America and its agents being looked at objectively and with no leniency.

It is now 2016 and the climate and the circumstances that allowed the United States to get away with the aggressive bombing of Yugoslavia and the subsequent attacks on Iraq and other “interventions” in the 1990s no longer exists. The main difference being that now the world knows exactly what the United States is up to and knows not only the methods of subverting, dividing and destabilizing civil society used by the CIA but the names of the players, the architects and proponents of subversion, provocation and destabilization.

There is so much known now that the United States, NATO and the CIA should have ceased and desisted long ago. From the blueprint written by the Project for a New American Century (PNAC) to the installation of a Nazi regime in Ukraine to the creation and sponsoring of terrorists to attack and remove from power leader after leader, including Bashar Al Assad, everything is known to the citizens of the world who merely wish to find out, and surely known by the intelligence agencies of all of the countries of the world. Yet no one has done anything to bring this out of control remorseless beast (in the words of Hillary Clinton), to heel.

Even though the US/NATO/CIA obfuscates and uses proxies and fronts to escape responsibility, these proxies and fronts are well known to all. The list is immense in the civil society destabilization area alone with people like George Soros, Pierre Omidyar, Mark Zuckerberg and others who have grown so bold that they do not even hide their collusion with the CIA and the NSA to manipulate, influence and subvert foreign countries and governments.

The list of war profiteers, weapons suppliers, private intelligence and military groups, corporate fronts and all of the other organizations making these crimes possible and even worse profiting of them is even bigger, yet again nothing is done and they continue undaunted and seemingly unstoppable. These include Halliburton, Raytheon, the Carlyle Group, the RAND Corporation, Stratfor, Blackwater/Academi/Xi/Greystone, USAID, Pierre Omidyar, George Soros and so many more.

This is being written with the western reader in mind, because it is the citizen of the West that has been the main target of the propaganda that has brainwashed millions. The nazi technology of the big lie has made Americans and those in the West believe everything that has been fed to them. From 911, which has been proven to be an inside job, to the big lie that countries on the other side of the planet want to rid Americans of their freedoms and their way of life when in fact it is the US Government itself that is taking away their freedoms, almost everything the American people are told is only to make them compliant terrified sheep who will support the jackals who have seized power.

The world made a big deal about Edward Snowden revealing things we already knew or suspected but he has never once mentioned how these things are being used and the fact that he has not revealed one substantial fact regarding 911 or something that was truly damaging and caused something to change, is only one of the reasons that makes me believe even he is another Psychological Operation launched against the people of the world to take away attention from real whistleblowers and those who are fighting the real illegality of the US shadow government.

Given that it is of utmost importance that the American people rise up and stop those committing these horrendous crimes in their name and people in the West who by demanding accountability may be able to affect real change, again this piece is chiefly being written for them. We in Russia know what they are doing, but since all of the international bodies and holders of instruments of real influence are beholden to the United States change must come from within the US itself and from the West.

With the violent opposition to journalism, the culture of war and violence as something honorable and commendable, and the constant non-stop lies to instill terror, the demonization of countries and leaders and the suppression of any narrative or fact that goes against this, the task I have set upon myself (to inform and by thus doing to prevent another World War) is one that is almost guaranteed to fail before it even begins, but one that I must attempt even if I am literally killed for it. I therefore ask you to read to the end.

Call to Lawyers for Rule of Law

They used to make films about the lone truth seeker or fighter for justice going against some huge conspiracy or evil organization, suffering greatly and in the end winning but we have seen that in reality this is an almost impossibility, and they have shown us over and over again that no matter how big or how unbelievably evil the crime being exposed is, it is the whistleblower and the fighter for justice who will pay the price. That is what the human race has devolved into, we need to change that and bring rule of law back into the world as a true and principled way of existing in peace together.

A Plea for Help to Formulate Legal Filings and Documents

The reasons for writing this piece are multi-layered but the hope is that that it will help to gain support for a return to sanity, serve as the basis or catalyst for several legal actions that are long overdue and cause like-minded professionals in the sphere of international law to pull together and formulate the legal instruments and frameworks needed to bring about real change and end the endless war begun by the United States of America.

First and foremost we need a truly independent investigation into the events of 911 and we need those truly responsible to be brought to justice. Next we need the organization of an international tribunal and international filings to finally hold the United States of America and the Central Intelligence Agency and the agencies of the FVEY countries and Israel to account for War Crimes, Aggressive War, Genocide, Crimes Against Peace and Crimes Against Humanity.

Finally we need the United Nations to abide by its charter and the entire reason for its existence and force the aggressors to peace.

I know that there must be great legal minds out there with the courage to take this on. Unfortunately I am not hopeful but I welcome any sort of partnership in this regard.

Syria

426 Children Slaughtered as a Pretext for War and Millions Killed

Truly one of the most horrific war crimes in modern times occurred in Ghouta and Latakia Syria in August of 2013 when chemical weapons were used against the civilian population.

The initial intelligence and news reports I had when working as a journalist for the Voice of Russia World Service in English were that 426 children were gathered from schools and gassed by CIA backed IS/IL/ISIL/ISIS/DAESH terrorists and using chemicals supplied by Mossad were simply exterminated on the eve of a United Nations visit to serve as the pretext for an invasion.

The invasion did not happen because the plans were exposed by Russian Intelligence and Russia brokered a deal to turn over every possible chemical

weapon that Syria had but like 911 nothing ever became of the event and the real culprits were never punished.

It is impossible to list here all of the crimes that have taken place in Syria, including the theft of Syrian oil, obtained by ISIS, transported by Turkey and delivered to Israel, but just those two events alone should be enough to warrant an international investigation into the CIA and Mossad's involvement. But again nothing has happened and the US continues to spread false propaganda and is now in fact ready to start World War III with Russia to secure the regime change that has been ordered by the architects and the planners of the Project for a Greater Israel.

It is a little known fact that the territory staked out by ISIS for their Caliphate is the same as the territory claimed by Zionists as the borders for their "Greater Israel". Unfortunately all of that territory already housed states which we have seen destroyed one after the other since 911. Yes ISIS stands for Israeli Secret Intelligence Service and Mossad is their chief creator.

All of this may sound like something from a horror story but these are the facts and these facts demand an international effort to stop these aggressions and the murders of millions.

Genocide in Palestine and Israel

I risk losing most of my American readers here and may be labelled an anti-Semite etc. no doubt for saying the truth about Palestine but how can I be silent when Israel is the key architect of the destruction of the Middle East? I am not a racist I speak four languages and am a mixed indigenous person so any anti-Semite charges are ludicrous. I also make the distinction between Zionists and Jews, as do normal peace loving Jews, who do not support the genocide being carried out in the name of Jewry by the Zionists.

The information warfare, manipulations and lies are so strong that most people living in the US truly and really believe that Israel has a right to kill and commit genocide on Palestinians. Not helped by the Zionist controlled media and the fact that many of the people who openly talk about the issue are usually pushing some white supremacist agenda and really do hate Jews.

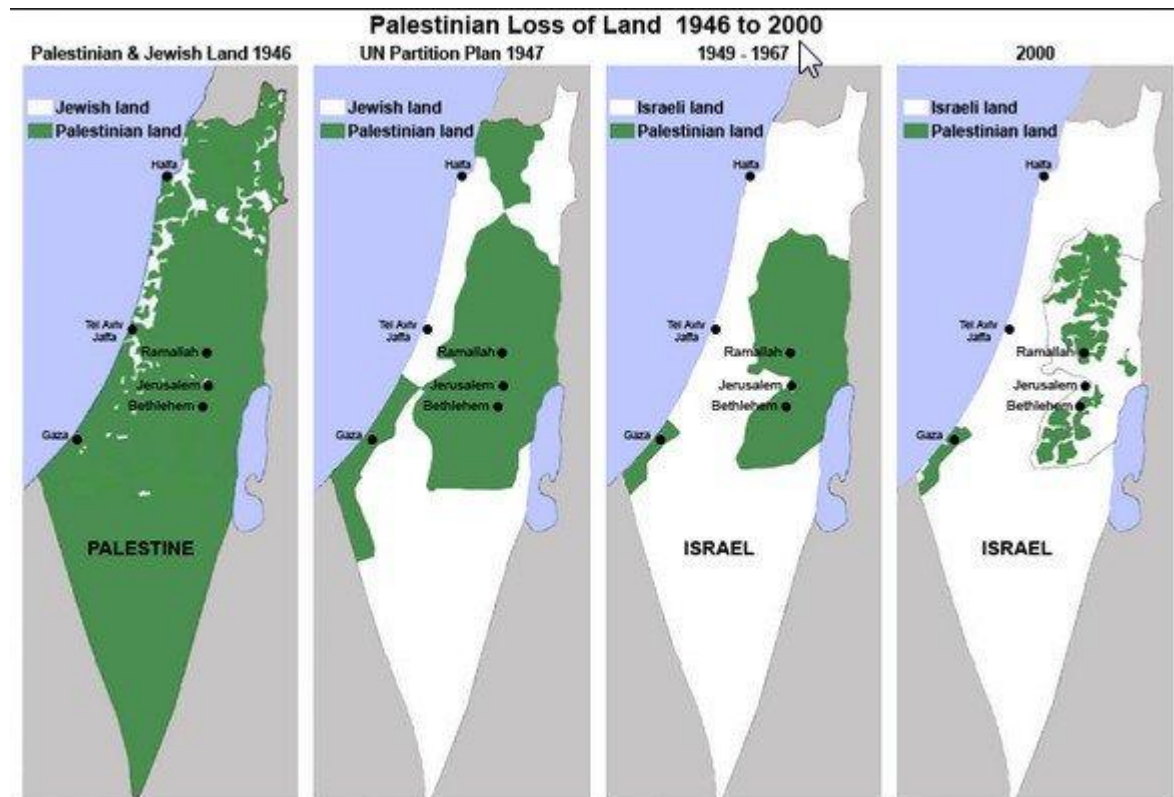

Committing genocide for land like the white Europeans who call themselves the “American” people and claiming that the territory of the United States is theirs, Israel is doing exactly the same thing in Palestine, and the world has been silent.

Like the white “Americans” the people claiming Israel have no claim to the land other than genocide. These white Europeans are not Semites, as are the Palestinians who are the real natives of the territory. So as the whites in the US singing “This land is your land, this land is my land...” and convincing the world that North America is somehow a white nation (due to the complete and total genocide which inspired Hitler), the Zionists are doing the exact same thing and even taking it one step further and claiming to be Semites, who are the dark skinned natives of the territory.

Given that the Zionist control the media and like the white Americans have absolutely no conscience and continue to commit genocide with impunity there is no possibility for a true wide spread movement to stop them.

There for these two facts are also recommended to be investigated by an international tribunal, court and body to finally put an end to the impunity and

return the native people control and ownership of their lands this will apply to both Palestine and North America.

Ukraine and Genocide in Donbass

What the United States has done in Ukraine would have been the straw that broke the Camel's back in a sane world ruled by mutual respect, the honoring of sovereignty and adherence to the rule of law, but as we have seen no one has stood up and the nazis that were brought to power by the U.S. were simply allowed to be legitimized and allowed to replace the elected government as if they in fact reflected the will of the people.

Ukraine was the most transparent and obvious regime change operation in modern times and the US actually did almost nothing to hide the fact as they brought nazis to power in the 21st century in Europe. The fact that it was nazis is very important because it ties in with the ideology of the architects of 911 whose own ideology is clearly one reflected and guided by nazi thinkers as is explained later with links to more in-depth discussion on the topic.

The fact that the US transparently installed a nazi regime and then backed and supported the genocide of the Russian population can not be hidden by the label “terrorist”, even though it has seemed to work until now.

By labelling the Russian population of the Donbass as terrorists and announcing an Anti-Terrorist Operation the nazis in power and their US supporters have tried to make it almost impossible for anyone in the world to support the people of Donbass. How can one support terrorists? Terrorists according to the US/NATO ideology of the post 911 War on Terror paradigm can only be liquidated. Which would be fine with me too if they were REALLY terrorists. But they are not, they are simply people like you and I.

Ukraine has become a Theme Park for the CIA, complete with secret torture prisons, black sites of every kind and a headquarters consisting of the entire 4th floor of the Ukrainian SBU headquarters where no Ukrainians are allowed from which to coordinate their secret war against Russia and the genocide of the people of Donbass.

There are so many things I could tell you about Ukraine that it would make your head spin but I will tell you just a few points. Number one, the entire Donbass was sold by the Ukrainian nazis to the United States and its partners for a period of 65 years with the right to renewal. This is the real reason that the territory must be freed of people.

Number two is that the lunatic planners and architects of World War III who are about to put their puppet into the White House were responsible for shooting down Malaysian Airlines Flight MH-17 in another false flag pretext for all-out war.

The slaughter at the House of Unions in Odessa took the lives of over a hundred people and it took them days to remove the dismembered bodies from the site of the tragedy and those guilty are enjoying a life in the US backed government and even touring to Moscow and Europe.

I encourage you to visit my site and read more on the issue and on what really transpired in Ukraine.

Crimea

My extensive experiences and all of the information I learned in nine months in Crimea is contained in a separate 150 page report titled: Crimea After the Referendum: An Inside View

The results of my 9 months and 17 trips to Crimea have been painstakingly gathered in this comprehensive 150+ page report which is available for publication on a freelance basis or special order.

This just completed fact finding report is based on information from contacts, interviews with hundreds of people, personal observations and information gathered during my extensive time on the peninsula and includes photographic evidence and documented proof of all issues and revelations covered in the report.

You will be surprised by some of the findings in this completely unbiased presentation and analysis of the current situation on the peninsula which also has forecasts and recommendations that would be valuable to anyone with an interest in understanding the real situation in the region.

If you are a broadcaster or publisher I am also offering hundreds of hours of interviews for sale regarding Crimea and Ukraine including much of my archived material. Among the gems are rare interviews with WikiLeaks principles including Christine Assange and Jacob Applebaum, a huge collection of experts discussing 911, and a unique collection of interviews with Indian Elders, US presidential candidates, Anonymous and more.

Interviews are studio quality and most include transcripts and are my own intellectual property. I am also including hundreds of hours of unaired material which includes some startling revelations regarding Edward Snowden, convicted Soviet spy Mike Smith and others like CIA spy Sutyagin.

Some of the raw Intel in this report includes:

Ukrainian oligarchs and their continued ownership of strategic real estate

The Yulia Timoshenko family and their ownership and control of Respect Hall and the management's connection with Turkish Intelligence

The Night Wolves and Alexander "Hirurg: Zaldastonov, my time living with them at Gasfort and trying to promote the Bike Show

The Crimean Tartars, the building of Mosques and the condition of the Orthodox Church in Crimea

The spreading racism and nationalism that is growing to dangerous levels

Rampant alcoholism and the weakening of the moral fibers of society brought on by the economic hardships and skyrocketing prices: the effect of US sanctions on the population

The strategic importance of tourism and its disappearance

Construction projects funded by the Ukrainian junta which continue unabated despite the separation from Ukraine

How a large part of the population has fallen through the cracks and the "illegal" homes they live in

Despite Russia investing billions of rubles on infrastructure and improving the roads no construction or improvements taking place

The exploitation of refugees from the Donbass by unethical profiteers

The popularity of President Putin: Fact or myth?

The continued lack of protection for refugees and the marginalization of ethnic minorities

Afghanistan, Iraq, Libya, Yemen, Bahrain, Somalia, Continental Africa, the Middle East, Europe, Serbia, France, UK, Poland, Latvia, Georgia, Lithuania, Armenia, Venezuela, Cuba and others

The war crimes, forced and orchestrated regime changes carried out by the United States and the CIA in these countries and the acts of aggressive war can almost not be calculated as neither can the number of dead which is in the millions.

A number of the country listed have not had the misfortune of obtaining US/NATO military “attention” but in those countries, such as Latvia, full scale color revolution and regime change operations are under way as is the ramping up of anti-Russian sentiment and hysteria.

Just the invasion of Afghanistan alone and the profiting from the opium by the CIA should be enough to warrant an international investigation but so far nothing of the kind has been done and it appears never will be done.

Indigenous

The plight and the genocide of the Indigenous peoples of North America continues and it is long past time that they were allowed a return of their lands and as the natives of North America a return of their right to control their own country, their destinies and live with dignity and pride as the true natives of North America.

There are so many areas where the US Government is in violation of simple human rights, including every single treaty signed and never having be held accountable for the most massive genocide in history that the sheer weight of this task would take untold efforts. The only real and practical solution would be the dissolution of the United States in its current form and the stripping from power of the occupiers.

Yes this sounds radical and I am probably the only person on Earth making such a call but it is the reality if justice is ever going to reign on Earth. The genocide of the indigenous people and the slavery of the blacks are the chief evens that have caused the psychosis of the American people since the formation of the republic. Justice must somehow be brought and closure and catharsis for all sides.

I ask you to please support the Onondaga 15 who have been fighting for justice since 1997 after being brutally beaten during a peaceful protest

<http://mohawknationnews.com/blog/2016/10/18/no-surrender/>

and Deia Schlosberg who is facing 45 years in prison (meaning life) for simply filming the peaceful native American protest of the Dakota Access Pipeline.

The PNAC and 911: The Root of All Evil

There exists a power in the world, a shadowy evil black power that has no mercy and no remorse and counts us humans as mere bags of water and wastes of space. They believe, having gone insane with their unlimited wealth and power, that they are somehow better than the rest of us and that we are expendable and to be extinguished as their will sees fit.

What their ideology is is not important. For there can be no ideology to justify what they have done and what they continue to do and they manipulate, shape shift and change their ideology as the audience or the circumstances see fit. Even those who have allied with them assisting them in reaching their goals are not safe, for they will use and lie to anyone and say anything to reach those goals.

At the beginning they were called Neocons and it was their ideas and ideology that were used as cover because they most fit that of the psychotic death planners in the shadows in the Office of Strategic Planning, JSOC, CIA Black Operations Command, and the private think tanks and secret offices of the Carlyle Group, the Project for a New American Century, NORAD, NASA, the Pentagon, NATO and others we will never know about.

Under best estimates there are only a few, perhaps 5 people on earth, who know the full extent of all of the plans, they include Rockefeller, Rothschild, Bush, the person controlling the Bilderberg Group and I believe someone in Russia.

With the introduction of Diebold voting machines and nefarious illegal voter manipulation, those covering for the shadow government came into power in the year 2000. It was at this moment that plans for the carrying out of 911 were set into earnest motion.

The PNAC Blueprint and the Post 911 Shadow Government

The written part of the blueprint was drawn by the PNAC before 911 in a document called Rebuilding America's Defenses. Everyone can still find that document online although the PNAC site was taken down a couple of years ago when I was researching the organization for an article, yet another in long line of coincidences.

The document would serve as an excellent basis for the foundation and initiation of criminal proceedings and an investigation into the authors and the monsters who actually are controlling everything that is happening in the world today and would help to answer the question as to who is really behind the endless resource wars, genocide and terror and tragedy of 911.

I recommend the following links to learn more about 911 and the real architects and reasons behind it.

NATO

NATO is an anachronism and should have been disbanded long ago but it has grown into a global protection racket and an expeditionary resource war force. NATO is also the key for the plan to achieve global hegemony by the U.S> through the use of force.

NATO is also necessary for the U.S. to achieve what they call Full Spectrum Dominance and finally NATO expansion is needed to destroy the Russian Federation and the People's Republic of China with those plans already under way and approaching their final phases.

I contend that the expansion of NATO to the East and the global expansion out of the area of Europe is illegal and unprecedented in human history and it must be stopped first and foremost. This task will require the best and brightest and bravest minds to bring about but it must be done for the sake of peace and all of mankind.

I have evidence that the NATO missile shield is completely ineffective allowing 40% of large missiles through and 80% of smaller ones and is in reality not a defensive shield but an offensive first strike weapons network.

This too must also be investigated by the international community.

There may have been a time when the CIA was an honorable organization fighting on the side of good but that time, if it ever was, ended long ago. The Central Intelligence Agency of the United States of America, despite its mystique and almost limitless power, is in fact the largest criminal enterprise on the face of the Earth. There is no other organization that is violating the laws and norms of the civilized world more than the CIA.

From the sponsoring, arming and training of terrorists, to the assassination of leaders, to the organization of revolutions and the overthrowing of governments, to the carrying out of mass casualty events and pretexts for military invasion and finally the subversion and destruction of entire populations and states, the Central Intelligence Agency is the single most damaging and evil power in modern history.

As the most exceptional arm of the most exceptional machine of death and conquest that is the United States, it is also the most dangerous body on Earth. How can it be contained and forced to abide by international law and its own charter is not possible. The only answer would be its liquidation and I am sure there is no one on the planet who would attempt to or last long enough to bring about such an event. However for world peace this is necessary.

AQ/IS/ISIL/IL/ISIS Creation and Support of Terrorism

Once upon a time the term “State Sponsor of Terror” meant something, but today with ample clear and direct evidence and inarguable proof to prove that not only Al-Qaeda (the Base), Osama Bin Laden (CIA Agent Tom Osman), ISIS (Israeli Secret Intelligence Service) and other groups such as the Ukrainian Right Sector, are creations of the CIA/Mossad/Saudi Arabia/NATO, this term now means nothing. Yet the creation, funding, sponsoring, arming, supporting and using of these non-state terrorist groups is one of the first and foremost instruments that can be used to stop the United States and NATO in their tracks if there is the will.

Knowledge of the above is not something only held by intellectuals or the intelligentsia but is even known by enlisted men in the US Armed Forces who openly protest going to war and being forced to make the ultimate sacrifice to support AL-Qaeda as they illegally kill and murder civilians in yet another US/NATO resource war. Therefore it is key that we gain the support of sane individuals in the military to carry this out.

The revelations that from Al-Qaeda to DAESH (all different names for the same beast just as Blackwater transformed into Greystone) the CIA and Mossad and Saudi Arabia have not only supported their illegal and monstrous activities but were also responsible for creating, training and arming them (something that is now evenly openly admitted by top US officials) should have caused an uproar for investigations into not only 911 but the entire War on Terror paradigm but nothing has, or it appears, will be done about it. However no matter how hard you try you can not change history even if you rewrite it, falsify events and control every manner of communication. All you can do is attempt to make the people believe lies and half-truths and omissions and hope that no one ever finds out, hence the war on journalism and the obsession in the US with secrecy. No matter these facts must be investigated and those guilty brought to justice.

Why Stopping the US/NATO is an International Concern

When the world watched the World Trade Center being hit by a second object and the witnessed the Twin Towers and building 7 be pulverized into dust and collapse into their footprints with people inside, the world was shocked and the hearts and minds of the entire planet reached out to Americans. In that moment of initial shock we were lied to and we believed what we were told. The PNAC had their catastrophic and catalyzing event and it was used to begin the paradigm of what we have now learned was a false and fabricated War on Terror, one that has been proven to have been used to launch war of aggression and the plan for a greater Israel. These are not conspiracy theories but actual history and actual actions.

These acts by the United States of America, the military incursions, invasions and destructions of countries and states have been documented, recorded and time and time again proven to have been carried out illegally and through the use of false claims, fabricated evidence and under false pretenses with the United States continuing to behave with impunity and complete disregard for international law, peace and the lives of the peoples of the world.

We know the technology, we know who is supplying the funding, we know almost all of the ways and means, yet no one has stood up in front of the United Nations or formed an international tribunal or even hinted at holding those responsible to account and when I dared to say that those responsible for Ukraine should face the consequences to "Oh my gods" I was never allowed on the media again.

Every action that the US has carried out since 911 has been illegal under international law and under the norms that guide most of humanity. Even further back we can start with Yugoslavia and then move on to the illegal torture prison at Guantanamo Bay Cuba, to the invasions of Afghanistan, Iraq, and Libya and U.S. involvement in Kosovo, Yemen, Somalia, Pakistan and now Syria. Finally we have the U.S. orchestrated overthrow of Ukraine and now rhetoric, statements, provocations and actions which continue unabated to provoke the Russian Federation into World War III.

There will be objections by Americans regarding sovereignty and the US Government's refusal to abide by international laws and conventions will be used to deny access and ignore findings.

If the issue had remained an internal one an argument could be made for allowing the United States to keep it a sovereign one but when the first bombs dropped on Afghanistan and Iraq, the issue became an international one and these crimes must be punished.

Therefore if we can agree and accept by the its own actions the United States of America has made the issue an international one, and this is of course true and became thus when the US launched its attacks on Iraq and Afghansitan and there is, if not overwhelming evidence then at least a preponderance and extenuating circumstances, that have moved the events from one of an internal "security or police" matter to that of an international issue,

Although we can argue that had more than 5,500 people, nationals of 90 countries, been killed in terrorist events in any country, counting the 2,999 who died on 911 and adding the approximately 1,140 civilians and 1,400 rescue workers who then perished of cancers (giving concrete proof that mini nuclear devices were used along with CIA controlled nano-thermite and nano-RTX) there would definitely have been an international investigation. Nothing of the sort occurred in the United States with regard to the events of 911 and no one has been brought to justice and no believable explanation has ever been provided. Now we know the guilty will never be prosecuted because they are members of the shadow government which has been waging war since that day.

911 was the pretext for invasions and acts of aggressive wars which have led to the deaths of millions of human beings, which alone warrants an investigation, and under the expanded militarism and the guise of a "War on Terror" due to 911 NATO and the US Military have continued to expand worldwide.

Millions Dead Despite the obfuscation matter the

Thus the US has given up its right to call 911 an internal issue as it has decided to use the event to wage an endless war against an ideology.

The Evidence for an International Investigation of 911

As a journalist and voracious consumer of facts I have studied the events of 911 since the day they happened. Since the obvious controlled demolitions that were steel framed buildings designed to withstand hundred year storms collapsing into their own footprints after lateral impacts by aircraft against which the building were designed to withstand multiple strikes, I have sought the truth and tried to expose the conspiracy.

General Wesley Clark said that US/NATO is now in the business of destroying countries. This is illegal.

Points Needing Investigation and Clarification by an International Body

There are so many questions that need to be answered officially that it is almost an impossible task to go through each and every one but I have tried to at least group them properly into the most important headings.

1.0 The Planes

There are multiple questions as to the planes. Why is it that the registration numbers for the Pentagon plane and the Pennsylvania plane were never destroyed.

What happened to the passengers who landed in Ohio and were taken to a NASA hangar?

2.0 The Terrorists and the Dancing Israelis

3.0 The Pentagon and the Absence of a Plane

3.0.1 The missing trillion dollars that was being investigated in the office that was destroyed along with all of the investigators on 911.

4.0 The Pennsylvania Plane and the Ohio landing

5.0 NORAD and the exercises which left the area undefended

6.0 The WTC controlled demolitions, radiation, nano-thermite nano-RTX and why the steel was

7.0 Building 7

8.0 The Gold Reserve and the disappearance of over 500 billion in gold.

9.0 The profiteers and the “other” trillion dollars

10.0 The Israeli and Saudi Connections

11.0 Who were the internal US enablers

12.0 Guantanamo

Message to Military, Police and Intelligence Authorities

You have the most monstrous conspiracy in the history of the world which was carried out on US soil and has killed millions of people and caused the destruction of dozens of peaceful countries that never threatened or harmed the United States and now these same people want to bring about World War III with the Russian Federation and the People's Republic of China. You must all pull together and stop them and start serving the people and not the power elites who would kill us all.

Julian Assange

The courage of Julian in continuing to shed light on the illegality of the US machine is legendary and has given me the strength to get through this paper. He has done more to shed light on the illegality of the Clinton clan in the last week than all of the world's journalists combined in the last 20 years.

From the mishandling of classified information to the pay for play and illegal acceptance of foreign monies she should be stripped of the right to run for the office of president and remanded into custody.

Snowden

I do not trust Edward Snowden, his silence, his statements against Russia and his actions including his refusal to do anything to attempt to stop what is happening, as well as his stabbing in the back of President Putin prove to me beyond a shadow of a doubt that he is a Limited Hangout sent to Russia to fulfill the objectives of the CIA.

The Fallacy of Clinton: Their Faustian Pact

Clinton and Trump have made it clear to the world that it is time for the United States of America to be held accountable and their self-proclaimed status as the world's police man and intervener revoked once and for all. Just the fact that Clinton would ramp up WWII hysteria to gain points and distract from her own faults is a damning characteristic.

The sheer size and length of the US Presidential campaign circus polluting the world's media for over a year does nothing for U.S. prestige and is an international disgrace. Against this backdrop to start rhetoric and actions that will lead to World War III is inexcusable and prove that there must be a return to the rule of law and to the serving of the will of the people.

I believe the people of the world are not interested in endless war. The peoples of the world are not interested in destroying each other or establishing global corporate fascism run by the United States. The people have no need for Full Spectrum Dominance or global U.S. hegemony. We want to live in peace, raise our children, work and get along. Those are honorable and civilized desires and those who would continue to wage war and destroy and dominate by force must be isolated and excluded from the family of the human race.

Death of Journalism

The unprecedented steps that are being taken against journalists is staggering with film maker Deia Schlosberg now facing 45 years in prison just for covering a protest and Democracy Now's Amy Goodman arrested for simply reporting on it. Julian Assange continues his forced detention with Clinton calling for his droning and has had his internet cut and now RT has had their UK accounts closed. All being done to hide the crimes of Clinton. This kind of lunacy has got to stop!

Although I myself have been the target of a brutal campaign to silence me and am nearing the end of my life, I feel I have a responsibility before human kind to try to do something to stop war and bring about peace.

For the past week I have been debating how to present my analysis and my findings, challenged by the active censorship and regionalization by Google of my site www.jar2.com and the social media I am forced to use, and demoralized by the carefully orchestrated attacks on my family and my credibility.

I am also continuously daunted by the fact that there are few people left in the world who are interested in hearing the truth or facts when those facts run counter to the diet of manipulated and false narratives that they are forced to accept as reality. The perpetual questions of how one person can come up with the proper words and the proper "formula" to reach people who refuse to listen and see the truth quashes almost all motivation.

When faced with the challenge of countering Cognitive Dissonance, which I wrote about while attempting to survive in Crimea, which is am certain is the chief instrument that the US Military/Intelligence/Media Complex Psychological Operations are using to lie and manipulate the masses with, there is little that one simple journalist can do. But one must try and I thank Julian Assange for giving me the will and the inspiration to try.

A Call to Peace and International Rule of Law

I have been saying for a over a year now that Hillary Clinton will be chosen as the next President of the United States (POTUS) because she will protect and allow those in the shadows to continue their plans. But it is you the people who must fight back and if we can somehow all pull together in a united front to bring war criminals to justice we may bring back the rule of law and preserve humankind and stop the looming world war and bring peace back to the world.

Personal Plea from the Author

Dear Friends,

Best of the day to you, and just want to tell you I am not giving up yet. I am still convinced that there must be a way to reach the people and survive just on the Internet and I have to believe that because it is all I got.

You are receiving this letter because I believe you are not indifferent to the fate of JAR2 and that of my family and I and because I think you are also a champion of the truth and support what I am fighting for. We are now on a 1Gb channel and need your support to make our expenses including rent of 15 000 rubles or 240 dollars, food, clothing and of course the Internet and electricity.

I have been working 24/7 on-line with multiple consecutive projects including hosting the WADA files, the Clinton Files from Guccifer 2.0, trying to help my Mohawk brothers and sisters obtain justice and hosting the WikiLeaks Podesta files which I am curating and making available for simple download.

Recently I wrote the letter on the next page to the Russian people and started making videos which I am placing on You Tube as well as also being busy behind the scenes. I hope this letter will help bring about peace.

I ask you to make a 500 ruble (8 dollar donation or more if you can) today so we do not end up on the street with the servers.

<http://www.jar2.com/Crimea/Support/pay.htm>

I will continue working for you and for peace,

Sincerely,

John

An Open Letter to the Russian People

Dear Russian People,

Best of the day to all of you. My name is John Robles. I was the first "American" to have received asylum in this great country. I also used to be one of the voices that represented Russia and the Russian world on the Voice of Russia World Service in English. I have spent almost ten years living in Russia with asylum and have lived in Russia for almost 20 years and love Russia, her people, her culture, her vast nature and her brave and fearless leader Vladimir Putin and I consider myself to be a Russian patriot.

I am writing to you today with great sadness and pain in my heart and to offer you a message that I believe represents not only my family and I but the majority of the informed American people, members of the English speaking world and all of the indigenous peoples of North and South America who know the truth and want peace.

Dearest beloved Russia, I am sorry for the government of the United States of America which has long ago ceased to be a representative democracy and I am sorry for the governments of the NATO countries and the countries of the English speaking world who do everything the United States demands.

I am sorry that these governments which do not represent me or my family want to provoke and push Russia into World War III because Russia has a brilliant and strong leader who follows an independent foreign policy and because they want Russia's resources.

I am sorry that these forces want to rob and weaken Russia and the Russian people with their economic sanctions because they cannot balance their own checkbooks and are run by people with insatiable greed for money and resources who believe they have the right to take anything they want and are attempting own and control the world. They do not represent us.

I am sorry for the NATO countries and their unending drive for war, their insane attempt to rule the world by force in order to achieve the unattainable concept of Full Spectral Dominance and their surrounding of peaceful developing Russia with missiles and weapons of death and destruction and military bases. They do not represent us.

I am sorry for the Central Intelligence Agency and the US State Department who believe they have the right to destroy countries by killing the leaders and fomenting armed uprisings and color revolutions and destroying infrastructure and killing you the people. They do not represent us.

I am sorry to you dear Russian and Soviet people that the US Government lied to you and made you believe in some dream of hope and prosperity and democracy that was nothing but a ruse to control and deceive and steal your vast resources and wealth. They do not represent us.

I am sorry for Donbass, Ukraine, Kosovo, Yugoslavia, Iraq, Afghanistan, Yemen, Libya, Syria, Iran, Vietnam, Hiroshima, Nagasaki, Venezuela, Cuba, North Korea, China, and all of the countries where these governments have dropped bombs and killed millions of innocent people and manipulated and corrupted leaders and started revolutions, they do not represent us.

I am sorry for them and I beg your forgiveness for they do not know what they do and they do not represent us. They brought themselves to power by controlling all of the instruments and levers of wealth, intelligence, control and power, and have enslaved the populations they control. They do not represent us.

We the people of North and South America and of the world who see the truth do not want war, we do not want to kill your brothers and sisters and children. We do not want to steal your resources and destroy your economy so that ours can improve and the mistakes and wealth of our morally bankrupt leaders can be funded with blood money. They do not represent us.

I am sorry and beg your forgiveness for the people who support these leaders for they do not know what they do. They are blinded and the people are distracted by non-issues such as gay marriage and endless mindless media propaganda to demonize and vilify Russia and its strong charismatic peace loving leader who they despise because he possess all of the qualities and moral fiber that the can only pretend to possess.

I ask you to forgive me, my family and all of us who may have had the misfortune to be a part of the English world at one point or another yet see

the errors in our governments' ways and I want you to know that I have personally done everything that I can to stop the aggression by the US and NATO against the peaceful, beautiful and courageous Russian and Slavic peoples.

Since the US and NATO destroyed Ukraine and pitted brother against brother my family and I have also suffered even though we love Russia and considered ourselves part of the Russian world, yet we are treated as if we are part of that system that wants to destroy you all. Therefore I am writing this letter to all of you and once again I beg you to forgive us and to understand that the non-representative governments and intelligence agencies and the military machine that wants to drag you into World War III does not represent us....

I am so deeply and sadly sorry, please forgive us. I have spent everything I had and spent all of my energies fighting them and attempting to maintain my site www.jar2.com and try to stop the US/NATO machine but I can not alone and for this, I am also sorry.

We love Russia, President Putin, and all of the Russian people no matter what problems we may all have and we consider the Russian people our brothers and sisters in peace. We do not want war, please forgive us.

With all of our love and regret,

John Robles II
