The Shadow Government: Its Identifications and Analysis

by
Richard J. Boylan, Ph.D.

This is a summary report on those elements of that clandestine organizational network (which we shall label the '**Shadow Government**') which serves as a kind of "parallel government" to the official elected and appointed government of this Country. It includes those elements known to the author with sufficient certainty that they can be positively identified and their known or reliably reported functions described. It is distinctly possible that there are other elements (particularly in the realms of the "Black Budget" and "Special Operations") which have eluded our study and are not named here.

Just as with the official government, the Shadow Government has functional branches. However, unlike the official government, the purpose of the none-executive branches of the Shadow Government is simply to distribute various functions but not to achieve a system of checks and balances as was supposed to happen constitutionally between the Executive, Legislative, and Judicial branches of the U.S. Government. That is because the Shadow Government is a creature of a powerful elite who need not fear being dominated by an instrument of their own creation.

In the Shadow Government, 5 branches may be identified. These branches are: the Executive Branch, the Intelligence Branch, the War Department, the Weapons Industry Branch, and the Financial Department.

The reporting lines of the Intelligence Branch and the War Department to the Executive Branch are straightforward and obvious. Intelligence exists to provide the Executive Branch with sufficient necessary information to make adequately informed policy decisions. The War Department exists to provide coercive force to carry out Executive policy decisions which could meet with public resistance. The Special Operations units within the Intelligence Branch and War Department exist to carry out policy directives requiring covert action and official deniability.

The Weapons Industry Branch reports to the Executive Branch most often indirectly through the War Department and/or the Intelligence Branch (for "Black Budget" weapons systems).

The Financial Department theoretically reports to the Executive Branch for fiscal policy implementation, but de facto also reports directly to the international power brokers who have created the Shadow Government. The Financial Department serves at times directly as their instrument of fiscal policy implementation.

An analysis of the overall purposes of these 5 branches suggests that the overall purpose of the Shadow Government is to exercise covert control by:

- (1) collecting comprehensive institutional and personal information;
- (2) by establishing national and international policy independently of the established Government;
- (3) by developing high-tech arms and equipment and -- with these -- establishing small, specialized, highly-mobile, elite military units to effect these covert policies when need arises without having to rely on the official (and "unreliable") Armed Services (whose subservience to the Shadow Government is reasonably suspect);
- (4) by developing an armed capability to repel any threat to the status quo, (including the uncertain ontological, social, and economic impacts of any revelation of the reality of UFO and *extraterrestrial* presence) through the development of a Star Wars/BMDO ground and space-based surveillance and SDI weapons network;
- (5) by denying information compromising to the Shadow Government from all those outside "need-to-know" policymaking levels; and
- (6) by exercising control on the money supply, availability of credit, and the worth of money through policy decisions made outside of the official Government.

All of these mechanisms of control serve to preserve or advance the agenda of an international group of pivotal power and influence brokers. That agenda is -- according to Senator Barry Goldwater -- that "national boundaries should be obliterated and One World rule established" [With No Apologies, Berkley Books, New York (date unknown)].

These power brokers' most visible unifying instrumentality is the Council on Foreign Relations (CFR) -- which promotes the transition of Earth from a cluster of Nation-States to One Global government -- [Chairman: Peter G. Peterson; headquarters: 58 E. 68th Street, New York, NY 10021]. [cf. In Control, Kerrville, TX: Fund to Restore an Educated Electorate, 1993.]

However, one must not underestimate the influence of the Trilateral Commission (TC) which coordinates economic initiatives of the "Group of Seven" with other "developed countries" vis-a-vis the "underdeveloped world" [Chairman: Paul Volcker; headquarters: 345 E. 46th Street, New York, NY 10017]. Neither should one misjudge the power of the secretive Bilderberg Group (BG) which concentrates on the military and strategic considerations of powerful West European and North American power brokers [chair rotates, former Chair: Prince Bernhard of Holland; headquarters unknown: annual meetings rotate, but originally were held at the Hotel de Bilderberg, Oosterbeck, Holland].

David Rockefeller is the Chairman Emeritus of both the CFR and the TC, and certainly influences -- through proxy representatives (such as Lloyd Bentsen) -- the Bilderberg Group. [cf. Holly Sklar, ed., Trilateralism: The Trilateral Commission and Elite Planning for World Management; Boston: South End Press, 1981.]

What follows is a succinct identification and description of the constituent agencies in each of the five branches of the Shadow Government.

Executive Branch

(This branch contains the effective policymaking and controlling structures behind the veil of apparent, democratic governmental structures):

- (a) Council on Foreign Relations (CFR) (includes George Bush, Bill Clinton, all modern CIA Directors, most modern Joint Chiefs of Staff, most modern Cabinet and top Executive Branch appointed officeholders, etc.);

Financial Department

(Extra-Constitutional funding):

- (a) Federal Reserve System (cartel of private banks overseen by elite superwealthy financiers, such as the Rockefellers, Mellons, DuPonts, Rothschilds, etc. which dictates to the Government the flow of money, worth of money, and the interests rates);
- (b) CIA self-financing (the operation and/or control of much of the international drug trade in heroin, cocaine, and marijuana as well as "front" business enterprises as a source of cash for off-the-books covert operations and the purchase of exotic munitions and strategic bribe funds);
- (c) Department of Justice self-financing (the use of confiscated cash and valuables from "targets of investigation" to finance "special projects");
- (d) Special Forces self-financing (the self-use of confiscated "booty" from covert military operations to fund other clandestine operations).

What conclusions can be drawn from this preliminary analysis of the structure, functions, and operations of the Shadow Government? First, the Shadow Government is a very large, well-organized, skillfully camouflaged, parallel power structure. History suggests that it has served its masters well, and that its predilection for operating out of sight and notoriety -- if not in an outright clandestine fashion -- is exactly how its masters want it to function:- not drawing attention to itself, manipulating power behind the scenes, and accomplishing by covert operations what cannot lawfully or politically be accomplished out in the open.

What should be the attitude of the informed citizen to the Shadow Government? Since it thrives in the dark, we should shine the light of **full disclosure** on it. Citizens can demand:

- the end of the Congressional practice of allowing "Black Budget" items
- the end of unpublished secret Executive Orders and National Security Directives
- the end of the practice of indefinitely-sustained Presidential Declarations of National Emergency (as is currently in place)
- the end of Federal Reserve Notes and the return to the gold standard to back the dollar
- the end to governmental domestic spying on its own citizens
- the end to extremely severe reduction (on the order of 90%) in the number, staffing, and scope of the endlessly proliferating Intelligence agencies, which are an anachronism since the Cold War ended
- and an end to CIA and DEA collusion in allowing a continuing stream of drugs to pour into this country.

We founded this Country ... *it's time to take it back.*
