

# Rockefeller Syndicate - Secret Govt

The following is on the historical perspective of just the Rockefeller and Rothschild connections and in no way attempts to cover every aspect, but will suffice to give you a basis on which to understand how pervasive the Web of influence is and that it is a good deal MORE than "merely a conspiracy". Just WHO makes up the ILLEGAL SHADOW GOVERNMENT, YOUR HIDDEN MASTERS. Some have looked for shadows of the old illuminati; they look amiss, not seeing that which is all around them. If you know not the "who" and the "why", efforts will be mis-directed. This is NOT a "conspiracy", nay, it is a very cold and calculated NETWORK of individuals whose intent is nothing short of implementation of a "New World Order"; an oligarchic rein in which \*you\* serve as little more than slaves in their "technocracy". This network has every intention to implement a cashless society, for it is they who control every aspect of finance and banking over the entire globe. They have had about 100 years to perfect their plans and put them into practice.

Please understand that the Bilderbergers, the Council on Foreign Relations, the Tri-lateral Commission, the Institute for Policy Studies, the Roundtables, the "Club of Rome", etc are ALL bound by common denominators of long-standing families ties, and interests and come together as a \_single\_ policy making body that is known today as "The Committee of 300" . This has also been known as "The Olympians", the "Policy Committee".

Don't be mis-led by labels such as "Rockefeller" or "Rothschild"; for these are simply the families who have the mechanisms of control already set in place, but of themselves are not the entire network; that being the "Committee of 300". It is THEY who control the UN, who tell the heads of nations "when to jump and how high", they who are behind the world's illicit drug trade via the CIA and the old British East India links. They who manage the IMF, set policy at GATT conferences. It is they who ARE the "Shadow Government". It is they who manage the CIA, NSA, DIA, the same group that took out JFK and have MURDERED around 173 people in their efforts to suppress the truth about all the links, they who were behind the assassination of RFK, MLK, they who are behind the suppression of truth regarding the MIA's; It is the same group behind E. Howard Hunt, John Singlaub, Ollie North, the very same group who brought down Richard Nixon in Watergate, the same group behind the persecution of the Christic Institute, the same people who were behind Nugan-Hand, the same group that groomed Jimmy Carter for the Presidency,

the same group who ARE the "Military-Industrial complex", the same group behind the total militarisation of NASA, the same group who ARE "MJ-12", were behind the "Jason Group", the same behind Project Blue Book, The Condon Committee, the same who started up the NSA, who are responsible for the MURDER of Danny Casarolo, the same group responsible for the world-wide DISINFO campaign regarding the TRUTH of UFO sightings and contacts. The very SAME group who OWN THE MEDIA, ie, The Washington Post, NBC (General Electric), ABC, CBS, The New York Times, etc. The same group behind the Warren Commission, ad nauseum.

Many American conservatives believe as a matter of faith that the Rockefellers and the Council on Foreign Relations exercise absolute control over the government and the people of the U.S. This thesis can be accepted as a working formula if one remains conscious of the larger issues. Two writers for whom the present writer (E.M) has great respect, Dr. Emanuel Josephson and Morris Bealle, insisted on focusing on the Rockefellers and excluding all other aspects of the World Order. This severely limited the effect of their otherwise groundbreaking work on the Medical Monopoly. This writer advanced a contrary view in "The World Order," fixing upon the Rothschild monetary power, which reached a point of world control by 1885, and its London policy group, the Royal Institute of International Affairs, as the policy makers for what has essentially been, since 1900, a re-established colonial government, functions primarily through the Council on Foreign Relations, but only as the subsidiary of RIIA and through the Rockefeller Foundation, which controls government functions, the educational establishments, the media, the religions and the state legislatures.

It is true that the American colonials have "free elections," in which they have the absolute right to vote for one of two opposing candidates, both of whom have been handpicked and financed by the Rockefeller syndicate. This touching evidence of "democracy" serves to convince most Americans that you are indeed a free people. You even have a cracked Liberty Bell in Philadelphia to prove it. American youths have been free since 1900 to be marched off to die in Hegelian wars in which both combatants received their instructions from the World Order. You are free to invest in a stock market in which the daily quantity, price and value of the monetary unit is manipulated and controlled by a Federal Reserve System which is answerable only to the Bank of England. It has maintained its vaunted "independence" from your government control, but this is the only independence it has ever had.

The realization that you do indeed live under the dictates of the "Rockefeller Syndicate" can well be the starting point of the long road back of a genuine struggle for American independence. In exposing "the Rockefellers" as agents of a foreign

power, which is not merely a foreign power, but a genuine world government, you must realize that this is not merely a group dedicated to making money, but a group which is committed to maintaining the power of a colonial form of government over the American people. Thus the ancient calumny of John D. Rockefeller as a man obsessed by greed (a category in which he has plenty of company) obscures the fact that from the day the Rothschilds began to finance his march towards a total oil monopoly in the United States from their coffers at the National City Bank of Cleveland, Rockefeller was never an independent power, nor does any department of the Rockefeller Syndicate operate as an independent power. You know that the Cosa Nostra, or Mafia, with which the Syndicate is closely allied, has somewhat autonomous power in the regions which have been assigned to that particular "family" by the national directors, but this always implies that that family remains under total control and answerable for everything which occurs in its territory.

Similarly, the Rockefeller Syndicate operates under clearly defined spheres of influence. The "charitable" organizations, the business companies and the policy groups, always meld into a working operation, nor can any department of the Syndicate strike out on its own or formulate an independent policy, no matter what may be its justification.

The Rockefeller Syndicate operates under the control of the world financial structure, which means that on any given day, all of its assets could be rendered close to worthless by adroit financial manipulation. This is the final control, which ensures that no one can quit the organization. Not only would he be stripped of all assets, but he would be under contract for immediate assassination. The Department of Justice is well aware that the only "terrorists" operating in the United States are the agents of the World Order, but they prudently avoid any mention of this fact.

The world financial structure, far from being an unknown or hidden organization, is actually well known and well defined. It consists of the major Swiss Banks; the survivors of the old Venetian-Genoese banking axis; the Big Five of the world grain trade; the British combine, centered in the Bank of England and its chartered merchant banks, functioning through the Rothschilds and the Oppenheimers and having absolute control over their Canadian colony through the Royal Bank of Canada and the Bank of Montreal, their Canadian lieutenants being the Bronfmans, Belzbergs, Reichmanns and other financial operators; and the colonial banking structure in the U.S., controlled by the Bank of England through the Federal Reserve System; the Boston Brahmin families who made their fortunes in the opium trade, including the Delanos and others and the Rockefeller Bank, Chase Manhattan Bank,

American Express, the present form of the old Rothschild representatives in the U.S., which includes Kuhn, Loeb Company and Lehman Brothers.

It is notable that the Rockefeller Syndicate is far down on the list of the world's financial structure. Why then is it of such importance? Although it is not the crucial factor in financial decision in the Western Hemisphere, it is the actual working control mechanism of the American colony. The Rockefeller family themselves, like the Morgans, Schiffs and Warburgs, have faded into insignificance, but the mechanism created in their name roars along at full power, still maintaining all of the functions for which it was organized. Since he set up the Trilateral Commission, David Rockefeller has functioned as a sort of international courier for the World Order, principally concerned with delivering working instructions to the Communist bloc, either directly, in New York or by traveling to the area. Laurence Rockefeller is active in the operation of the Medical Monopoly, but his principal interests are in operating various vacation spas in tropical areas. They are the two survivors of the "Fortunate Five," the five sons of John D. Rockefeller, Jr. and Abby Aldrich. John D. Rockefeller, Jr. died in an institution in Tucson, Arizona and was hastily cremated. John D. Rockefeller III died in a mysterious accident on a New York Parkway near his home. Nelson Rockefeller, named after his grandfather, died in the arms of a TV journalist. It was later revealed that he had also been in the arms of another TV journalist at the same time; the death was hushed up for many hours. It was generally believed that he ran afoul of his Columbian drug connection, the disagreement hardly being trivial; it involved several billion dollars in drug profits which had not been properly apportioned. Winthrop Rockefeller died an alcoholic in the arms of his black boy friend. He had been interviewed on television by Harry Reasoner to explain his hasty move from New York to Arkansas. Winthrop learned that his black boy friend, an Army sergeant who apparently taught him the mysteries of drill, refused to live in New York. To celebrate this alliance, Winthrop Rockefeller gave magnificently to Negro causes, including the Urban League building on East 48th Street in New York. A plaque on the second floor notes that it was his gift; it might well have stated "From Hadrian to his Antinous."

We do not wish to imply that the Rockefellers no longer have influence, but that the major policy dictates of the Rockefeller Syndicate are handed down by other caps, of whom they continue to be a visible force. Through the person of David Rockefeller, the family is sometimes called "the first family of the Soviet Union." Only he and Dr. Armand Hammer, the moving force behind USTEC, have permanent permission to land their private planes at the Moscow Airport. Others would suffer the fate of KAL 007. David Rockefeller's most significant trip to the Soviet Union may have been the fateful day when he landed in Moscow, having been told to inform Khrushchev that

he was "through". The Russians are very health conscious, and a scientist had sent information to Khrushchev that the use of chemical fertilizers in the Soviet Union presented a threat to the people. Khrushchev then announced a major change in the Soviet farm policy, centering around a reduction in the use of chemicals. This was upsetting to the head of the world's Chemical Fertilizer trust, David Rockefeller, and he responded with a terse one word command, "Out".

Both the Rockefeller family fortune and the considerable portion set aside in the foundations of the Rockefeller Syndicate are effectively insulated against any type of government control. FORTUNE magazine noted August ,1986, that John D. Rockefeller Jr. had created trusts in 1934 which now amounted to some \$2.3 billion; another 200 million had been set aside for the Abby Rockefeller branch. The five sons had trusts which in 1986 amounted to \$2.1 billion. These trusts had originally amounted to only \$50 million each, showing the increase in their assets as well as inflation during the ensuing half century. FORTUNE estimated the 1986 total Rockefeller wealth as \$3.5 billion of which \$900 million was in securities and real estate. They owned 45% of the Time Life Building; Nelson Rockefeller's International Basic Economy Corporation had been sold to a British company in 1980. For years, the Rockefeller family had deliberately kept the rents low in its major holding, Rockefeller Center, a \$1.6 billion investment yielding an annual return of 1% . This was a convenient manuever for tax purposes, and a good one at that.

Much of the Rockefeller wealth might be attributed to old John D.'s rapacity and ruthlessness; its origins are indubitably based in his initial financing from the National City Bank of Cleveland, which was identified in Congressional reports as one of the three Rothschild banks in the United States and by his later acceptance of the guidance of Jacob Schiff of Kuhn, Loeb Company, who had been born in the Rothschild house in Franfort and was now the principal Rothschild representative (but unknown as such to the public) in the United States.

With the seed money from the National City Bank in Cleveland, old John D. Rockefeller soon laid claim to the title of the "most ruthless American". It is more than likely that it was this quality which persuaded the Rothschilds to back him. Rockefeller realized early in the game that the oil refinery business, which could offer great profits in a short time, also was at the mercy of uncontrolled competition. His solution was a simple one--crush all competition. The famous Rockefeller dedication to total monopoly was simply a business decision. Rockefeller embarked on a campaign of coercing all competing oil refineries out of business. He attacked on a number of fronts, which is also a lesson to all would be entrepreneurs. First, he would send a minion, not known to be working for Rockefeller, with an offer to buy

the competing refinery for a low price, but offering cash. If the offer was refused, the competitor would then come under attack from a competing refinery which greatly undercut his price. He might also suffer a sudden strike at his refinery, which would force him to shut down. Control of labor through unions has always been a basic Rockefeller technique. Like the Soviet Union, they seldom have labor trouble. If these techniques failed, Rockefeller would then be saddened by a reluctant decision to use violence; beating the rival workers as they went to and from their jobs, or burning or blowing up the competing refinery.

These techniques convinced the Rothschilds that they had found their man. They sent their personal representative, Jacob Schiff, to Cleveland to help Rockefeller plan further expansion. At this time, the Rothschilds controlled 95% of all railroad mileage in the United States, through the J.P. Morgan Company and Kuhn Loeb Company, according to official Department of Commerce figures for the year 1895. J.P. Morgan mentions in his "Who's Who" listing that he controlled 50,000 miles of U.S. railways. Schiff worked out an elaborate rebate deal for Rockefeller, through a dummy corporation, South Improvement Company. These rebates ensured that no other oil company could survive in competition with the Rockefeller firm. The scheme was later exposed, but by that time Rockefeller had achieved a virtual monopoly of the oil business in the U.S. The daughter of one of his victims, Ida Tarbell, whose father was ruined by Rockefeller's criminal operations, wrote the first major expose of the Standard Oil Trust. She was promptly denounced as a "muckracker" by the poseur, Theodore Roosevelt, who claimed to be a "trustbuster." In fact, he ensured the dominance of the Standard Oil Trust and other giant trusts.

During the next half century, John D. Rockefeller was routinely caricatured by socialist propagandists as the epitome of the ruthless capitalist. At the same time, he was the principal financier of the world Communist movement, through a firm called American International Company. Despite the fact that the House of Rothschild had already achieved world control, the sound and the fury was directed exclusively against its two principal representatives, John D. Rockefeller and J.P. Morgan. One of the few revelations of the actual state of affairs appeared in TRUTH magazine, Dec 16, 1912, which pointed out that "Mr. Schiff is head of the great private banking house of Kuhn, Loeb Company (I knew some of you bright readers would finally pick up that these names are all attached to the greatest pharmaceutical firms in the world--even into your very vitamin supplement business!), which represents the Rothschild interests on your side of the Atlantic. He is described as a financial strategist and has been for years the financial minister of the great impersonal power known as Standard Oil." Note that the name of Rockefeller was not mentioned in the quote.

Because of these concealed factors, it was a relatively simple matter for the American public to accept the "fact" that the Rockefellers were the preeminent power in your country. This myth was actually clothed in the apparel of power, the Rockefeller Oil Trust becoming the "military-industrial complex" which assumed political control of the nation; the Rockefeller Medical Monopoly attained control of the health care of the nation, and the Rockefeller Foundation, a web of affiliated tax exempt creations, effectively controlled the religious and educational life of the nation. The myth succeeded in its goal of camouflaging the hidden rulers, the Rothschilds.

After Eustis Mullins and a few others, had been exposing this charade for some twenty-five years a new myth began to be noised about in American conservative circles, effectively propagated by active double agents. This myth found a host of eager believers, because it heralded a growing crack in the monolithic power which had been oppressing all the peoples of the world. This "new" revelation was that a struggle to the death for world power had developed between the Rockefellers and the Rothschilds. According to this startling development, one faction or the other, depending on which agent you were listening to, had gained control of the Soviet Union and would use its power as the basis for achieving the overthrow of the other faction. The sudden death of several members of the Rockefeller family was cited as "proof" that such a struggle was taking place, although no Rothschild is known to have succumbed during this "war." This ignored the general understanding that Nelson Rockefeller had been "eliminated" as the result of losing deposit slips for several billion dollars of drugs from the Columbian cartel, or that the other Rockefeller deaths showed no trace of a "Rothschild connection."

Having maintained extensive files on this situation for several decades, the writer (E.M.), could not believe anyone could be so misinformed as to think that "the Rockefellers" were now trying to seize power from the Rothschilds, at a time when the influence of members of the Rockefeller family was already in great decline, their family finances being handled by John J. McCloy, and other faithful retainers; none of the retainers would have been willing to engage in a genuine power struggle, as they were faceless managers who lived only for their weekly paycheck. They had no ambitions of their own. Nevertheless, many hopeful Americans grasped at the will-o-the-wisp notion the Rockefellers were now "good Americans" who were willing to risk all to overthrow the Rothschilds. Amazingly enough, this pernicious story persisted for almost a decade before being relegated to the curiosities of history.

Like J.P. Morgan, who had begun his commercial career by selling the U.S. Army some defective guns, the famous Hall carbine affair, John D. Rockefeller also was a war profiteer during the Civil War; he sold unstamped Harkness liquor to Federal troops at a high profit, gaining the initial capital to embark on his drive for monopoly. His interest in the oil business was a natural one; his father, William Rockefeller had been "in oil" for years. William Rockefeller had become an oil entrepreneur after salt wells at Tarentum, near Pittsburgh, were discovered in 1842 to be flowing with oil. The owners of the wells, Samuel L. Kier, began to bottle the oil and sell it for medicinal purposes. One of his earliest wholesalers was William Rockefeller. The "medicine" was originally labelled "Kier's Magic Oil". Rockefeller printed his own labels, using "Rock Oil" or "Seneca Oil", Seneca being the name of a well known Indian Tribe. Rockefeller achieved his greatest notoriety and his greatest profits by advertising himself as "William Rockefeller, the Celebrated Cancer Specialist". It is understandable that his grandsons would become the controlling power behind the scenes of the world's most famous cancer treatment center and would direct government funds and charitable contributions to those areas which only benefit the Medical Monopoly. William Rockefeller spared no claim in his flamboyant career. He guaranteed "All Cases of Cancer Cured Unless They Are Too Far Gone". Such were the healing powers that he attributed to his magic cancer cure that he was able to retail it for \$25 a bottle, a sum then equivalent to two month's wages. The "cure" consisted of a few well known diuretics, which had been diluted by water. This carnival medicine show barker could hardly have envisioned that his descendants would control the greatest and the most profitable Medical Monopoly in recorded history.

As an itinerant "carnie", a traveling carnival peddler, William Rockefeller had chosen a career which interfered with developing a stable family life. His son, John, rarely saw him, a circumstance which has inspired some psychological analysts to conjecture that the absence of a father figure or parental love may have contributed to John D. Rockefeller's subsequent development as a money mad tyrant who plotted to maim, poison and kill millions of his fellow Americans during almost a century of his monopolistic operations and whose influence, reaching up from the grave, remains the most dire and malignant presence in American life. This may have been a contributing factor--however, it is also possible that he was totally evil. It is hardly arguable that he is probably one of the most Satanic figures in American history. Evil being defined as anything that moves the spiritual aspect of beingness away from God as influenced through another.

It has long been a truism that you can find a horse thief or two in any prominent American family. In the Rockefeller family, it was more than true in the case of

William who seemed to have faithfully followed the precepts of the Will of Canaan throughout his career, "love robbery, love lechery". He fled from a number of indictments for horse stealing and you know how serious that is, finally disappearing altogether as William and Rockefeller and magically re-emerging as a Dr. William Levingston of Philadelphia, a name which he retained for the rest of his life. An investigative reporter at Joseph Pulitzer's New York World received a tip that was followed up. The World then disclosed that William Avery Rockefeller had died May 11, 1906 in Freeport, Illinois, where he was interred in an unmarked grave as Dr. William Levingston.

William Rockefeller's vocation as a medicine man greatly facilitated his preferred profession of horse thief. As one who planned to be in the next county by morning, it was a simple matter to tie a handsome stallion to the back of his wagon and head for the open road. It also played a large part in his vocation as a woman-chaser; he was described as being "woman-mad".

On June 28, 1849, he was indicted for raping a hired girl in Cayuga, New York; he later was found to be residing in Oswego, New York and was forced once again to decamp for parts unknown. He had no difficulty in financing his woman-chasing interests from the sale of his miraculous cancer cure and from another product, his "Wonder Working Liniment", which he offered at only two dollars a bottle. It consisted of crude petroleum from which the lighter oils had been boiled away, leaving a heavy solution of paraffin, lube oil and tar, which comprised the "liniment". William Rockefeller's original miracle oil survived until quite recently as a concoction called Nujol, consisting principally of petroleum and peddled as a laxative. It was well known that Nujol was merely an advertising sobriquet meaning "new oil", as opposed apparently, to "old oil". Sold as an antidote to constipation, it robbed the body of fat-soluble vitamins, it being a well-established medical fact that mineral oil coated the intestine and prevented the absorption of many needed vitamins and other nutritional needs. Its makers added carotene as a sop to the health-conscious, but it was hardly worth the bother. Nujol was manufactured by a subsidiary of Standard Oil of New Jersey, called Stanco, whose only other product, manufactured on the same premises, was the famous insecticide, Flit.

Nujol was hawked from the Senate Office Building in Washington for years during a more liberal interpretation of "conflict of interest". In this case, it was hardly a conflict of interest, because the august peddler, Senator Royal S. Copeland, never had any interests other than serving the Rockefellers. He was a physician whom Rockefeller had appointed as head of the New York State Department of Health and

later financed his campaign for the Senate. Copeland's frank display of commercialism amazed even the most blase' Washington reporters.

He devoted his Senate career to a daily program advertising Nujol. A microphone was set up in his Senate office each morning, the first order of business being the Nujol program, for which he was paid \$75,000 a year, an enormous salary in the 1930's and more than the salary of the President of the United States. Senator Copeland's exploits earned him a number of nicknames on Capital Hill. He was often called the Senator from the American Medical Association, because of his enthusiastic backing for any program launched by the AMA and Morris Fishbein. More realistically, he was usually referred to as "the Senator from Standard Oil". He could be counted on to promote any legislation devised for the greater profit of the Rockefeller monopoly. During congressional debate on the Food and Drug Act in 1938, he came under criticism from Congresswoman Leonor Sullivan, who charged that Senator Copeland, a physician who handled the bill on the Senate floor, frankly acknowledged during the debate that soap was exempted from the law because the soap manufacturers, who were the nation's largest advertisers, would otherwise join with other big industries to fight the bill. Congresswoman Sullivan complained that, "Soap was officially declared in the law not to be a cosmetic. The hair dye manufacturers were given a license to market known dangerous products, just so long as they placed a special warning on the label - but what woman in a beauty parlor ever sees the label on the bulk container in which hair dye is shipped?"

Just as the elder Rockefeller had spent his life in the pursuit of his personal obsession, women, so his son John was equally obsessed, being money-mad instead of woman-mad, totally committed to the pursuit of ever-increasing wealth and power. However, the principal accomplishments of the Rockefeller drive for power, the rebate scheme for monopoly, the chartering of the foundations to gain power over American citizens, the creation of the central bank, the Federal Reserve System, the backing of the World Communist Revolution and the creation of the Medical Monopoly, all came from the Rothschilds or from their European employees.

We cannot find in the records of John D. Rockefeller that he originated any of these programs. The concept of the tax exempt charitable foundation originated with the Rothschild minion, George Peabody, in 1865. The Peabody Educational Foundation later became the Rockefeller Foundation and many of you should recall that item. Not that you might have been around then but it continues to inadvertently be referred to as such.

It is unlikely that even the diabolical mind of John D. Rockefeller could have conceived of this devious twist. A social historian has described the major development of the late nineteenth century, when charitable foundations and world Communism became important movements, as one of the more interesting facets of history, perhaps equivalent to the discovery of the wheel or fire. This new discovery was the concept developed by the rats, who after all have rather highly developed intelligences, that they could trap people by baiting traps with little bits of cheese. The history of mankind since then has been the rats catching humans in their traps. Socialism -- indeed, any government program -- is simply the rat baiting the trap with a smidgeon of cheese and catching himself a human.

Congressman Wright Patman, chairman of the House Banking and Currency Committee, noted from the floor of Congress that the establishment of the Rockefeller Foundation effectively insulated Standard Oil from competition. The controlling stock had been removed from market manipulation or possible buyouts by competitors. It also relieved Standard Oil from most taxation, which then placed a tremendous added burden on individual American taxpayers. Although a Rockefeller relative by marriage, Senator Nelson Aldrich, Republican majority leader in the Senate, had pushed the General Education Board charter through Congress, the Rockefeller Foundation charter proved to be more difficult. Widespread criticism of Rockefeller's monopolistic practices was heard, and his effort to insulate his profits from taxation or takeover was seen for what it was. The charter was finally pushed through in 1913 (the significant Masonic numeral 13 -- 1913 was also the year of the progressive income tax and of the enactment of the Federal Reserve Act). Senator Robert F. Wagner of New York, another Senator from Standard Oil (there were quite a few), ramrodded the Congressional approval of the charter. The charter was then signed by John D. Rockefeller, John D. Rockefeller, Jr., Henry Pratt Judson, president of the Rockefeller established University of Chicago, Simon Flexner, director of the Rockefeller Institute, Starr Jameson, described in "Who's Who" as "personal counsel to John D. Rockefeller in his benevolences", and Charles W. Eliot, president of Harvard University.

The Rockefeller Oil Monopoly is now 127 years old, yet in 1911, the Supreme Court, bowing to public outrage, had ruled that it had to be broken up. The resulting companies proved to be no problem for the Rockefeller interests. The family retained a two per cent holding in each of the "new" companies, while the Rockefeller foundations took a three per cent holding in each company. This gave them a five per cent stock interest in each company; a one per cent holding in a corporation is usually sufficient to maintain working control.

The involvement of the Rockefellers in promoting the World Communist Revolution also developed from their business interests. There was never any commitment to the Marxist ideology; like anything else, it was there to be used. At the turn of the century, Standard Oil was competing fiercely with Royal Dutch Shell for control of the lucrative European market. Congressional testimony revealed that Rockefeller had sent large sums of money to Lenin and Trotsky to instigate the Communist Revolution in 1905. His banker, Jacob Schiff had previously financed the Japanese in their war against Russia and had sent a personal emissary, George Kennan to Russia to spend some twenty years in promoting revolutionary activity against the Czar.

When the 1905 revolution failed, Lenin was placed "in storage" in Switzerland until 1907. Trotsky was brought to the U.S., where he lived rent free on the Standard Oil property at Bayonne, New Jersey, its tank field. When the Czar abdicated, Trotsky was placed on a ship with three hundred Communist revolutionaries from the Lower East Side of New York. Rockefeller obtained a special passport for Trotsky from Woodrow Wilson and sent Lincoln Steffens with him to make sure he was returned safely to Russia. For traveling expenses, Rockefeller placed a purse containing \$10,000 in Trotsky's pocket.

On April 13, 1917, when the ship stopped in Halifax, Canadian Secret Service officers immediately arrested Trotsky and interred him in Nova Scotia. The case became an international cause celebre, as leading government officials from several nations frantically demanded Trotsky's release. The Secret Service had been tipped off that Trotsky was on his way to take Russia out of the war, freeing more German armies to attack Canadian troupes on the Western Front.

Prime Minister Lloyd George hurriedly cabled orders from London to the Canadian Secret Service to free Trotsky at once - they ignored him. Trotsky was finally freed by the intervention of one of Rockefeller's most faithful stooges, Canadian Minister Mackenzie King, who had long been a "labor specialist" for the Rockefellers. King personally obtained Trotsky's release and sent him on his way as the emissary of the Rockefellers, commissioned to win the Bolshevik Revolution. Thus, Dr. Armand Hammer, who loudly proclaimed his influence in Russia as the friend of Lenin, has an insignificant claim compared to the role of the Rockefellers in backing world Communism.

Although Communism, like other "isms", had originated with Marx's association with the House of Rothschild, it enlisted the reverent support of John D. Rockefeller because he saw Communism for what it is, the ultimate monopoly, not only controlling the government, the monetary system and all property, but also a

monopoly which, like the corporations it emulates, is self-perpetuating and eternal. It was the logical progression from his Standard Oil monopoly.

An important step on the road to world monopoly was the most far-reaching corporation invented by the Rothschilds. This was the international drug and chemical cartel, I. G. Farben. Called "a state within a state" , it was created in 1925 as Interessen Gemeinschaft Farbeindustrie Aktien Gesellschaft, usually known simply as I. G. Farben, which simply meant "The Cartel". It had originated in 1904, when the six major chemical companies in Germany began negotiations to form the ultimate cartel, merging Badische Anilin, Bayer, Agfa, Hoechst, Weiler-ter-Meer, and Greisheim-Electron. The guiding spirit, as well as the financing, came from the Rothschilds, who were represented by their German banker, Max Warburg of M. M. Warburg Company, Hamburg. He later headed the German Secret Service during World War I and was personal financial advisor to the Kaiser.

When the Kaiser was overthrown, after losing the war, Max Warburg was not exiled with him to Holland; instead he became the financial advisor to the new government.

Monarchs may come and go, but the real power remains with the bankers. While representing Germany at the Paris Peace Conference, Max Warburg spent pleasant hours renewing family ties with his brother, Paul Warburg, who, after drafting the Federal Reserve Act at Jekyll Island, had headed the U.S. banking system during the war. He was in Paris as Woodrow Wilson's financial advisor.

I. G. Farben soon had a net worth of six billion marks, controlling some five hundred firms. Its first president was Professor Carl Bosch. During the period of the Weimar Republic, I.G. Farben officials, seeing the handwriting, began a close association with one called Adolf Hitler, supplying much needed funds and political influence.

The success of the I.G. Farben cartel had aroused the interest of other industrialists. Henry Ford was favorably impressed and set up a German branch of Ford Motor Company. Forty percent of the stock was purchased by I.G. Farben. I.G. Farben then established an American subsidiary called American I.G., in cooperation with Standard Oil of New Jersey. Its directors included Walter Teagle, President of Standard Oil, Paul Warburg of Kuhn, Loeb Company and Edsel Ford, representing the Ford interests. John Foster Dulles, for the law firm, Sullivan and Cromwell, became the attorney for I.G., frequently traveling between New York and Berlin on cartel business. His law partner, Arthur Dean, is now director of the \$40 million

Teagle Foundation which was set up before Teagle's death. Like other fortunes, it had become part of the network.

Tavistock + Esalen = "New Age"

Rothschild + Rockefeller = FED

UN + Maitreya = "Twilight Zone"

"A democracy cannot be both ignorant and free" - Thomas Jefferson
